Highlights

Ambisound technology

Ambisound technology produces truly embracing multi-channel surround sound from fewer speakers. It delivers an immersive 5.1 sound experience without the constraints of sitting position, room shape or size, and without the clutter of multiple speakers and cables. Through the combined effect of psychoacoustic phenomena, array processing and precisely angled driver positioning, Ambisound delivers more sound from fewer speakers.
Full HD 3D Blu-ray

Be enthralled by 3D movies in your own living room on a Full HD 3D TV. Active 3D uses the latest generation of fast switching displays for real life depth and realism in full 1080x1920 HD resolution. By watching these images through special glasses with right and left lenses that are timed to open and close in synchrony with alternating images, the full HD 3D viewing experience is created in your home cinema. Premium 3D movie releases on Blu-ray offer a wide, high quality selection of content. Blu-ray also delivers uncompressed surround sound for an unbelievably real audio experience.

Built-in Wi-Fi

With built-in Wi-Fi, you can access your media content wireless. Say goodbye to squinting at the computer screen, and lean back and enjoy your media files on your TV - in the comfort of your living room.

Internet radio

Internet radio is an audio broadcasting service that is transmitted via the Internet. Some internet stations are affilated with a traditional (terrestrial) radio station or network while others are internet-only radio stations, which are independent and devote their broadcasts only to the World Wide Web. With Internet Radio, you can enjoy access to onlilne radio stations from anywhere in the world and listen to a wide variety of genres, news, sports and entertainment updates, or connect to favourite or niche stations.

Instant 2D to 3D conversion

Enjoy 3D movie excitement in your home using your existing 2D movie collection. Instant 3D conversion uses the latest digital technology to analyze 2D video content to distinguish between foreground and background objects. This detail generates a depth map that converts normal 2D video formats, into exciting 3D. Along with your compatible 3D TV, you are now ready to experience full HD 3D.

600W RMS power

600W RMS power delivers great sound for movies and music
