NOTE! This copyright does **not** cover user programs that use kernel services by normal system calls - this is merely considered normal use of the kernel, and does **not** fall under the heading of "derived work". Also note that the GPL below is copyrighted by the Free Software Foundation, but the instance of code that it refers to (the linux kernel) is copyrighted by me and others who actually wrote it. Also note that the only valid version of the GPL as far as the kernel is concerned is `_this_` particular version of the license (ie v2, not v2.2 or v3.x or whatever), unless explicitly otherwise stated.

GNU GENERAL PUBLIC LICENSE

Version 2, June 1991

Copyright (C) 1989, 1991 Free Software Foundation, Inc.
675 Mass Ave, Cambridge, MA 02139, USA

Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public License is intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users. This General Public License applies to most of the Free Software Foundation's software and to any other program whose authors commit to using it. (Some other Free Software Foundation software is covered by the GNU Library General Public License instead.) You can apply it to your programs, too.

When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs; and that you know you can do these things.

To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. These restrictions translate to certain responsibilities for you if you distribute copies of the software, or if you modify it.

For example, if you distribute copies of such a program, whether gratis or for a fee, you must give the recipients all the rights that you have. You must make sure that they, too, receive or can get the source code. And you must show them these terms so they know their rights.

We protect your rights with two steps: (1) copyright the software, and (2) offer you this license which gives you legal permission to copy, distribute and/or modify the software.

Also, for each author's protection and ours, we want to make certain that everyone understands that there is no warranty for this free software. If the software is modified by someone else and passed on, we want its recipients to know that what they have is not the original, so that any problems introduced by others will not reflect on the original authors' reputations.

Finally, any free program is threatened constantly by software patents. We wish to avoid the danger that redistributors of a free program will individually obtain patent licenses, in effect making the program proprietary. To prevent this, we have made it clear that any patent must be licensed for everyone's free use or not licensed at all.

The precise terms and conditions for copying, distribution and modification follow.

GNU GENERAL PUBLIC LICENSE TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License applies to any program or other work which contains a notice placed by the copyright holder saying it may be distributed under the terms of this General Public License. The "Program", below, refers to any such program or work, and a "work based on the Program" means either the Program or any derivative work under copyright law: that is to say, a work containing the Program or a portion of it, either verbatim or with modifications and/or translated into another language. (Hereinafter, translation is included without limitation in the term "modification".) Each licensee is addressed as "you".
Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running the Program is not restricted, and the output from the Program is covered only if its contents constitute a work based on the Program (independent of having been made by running the Program). Whether that is true depends on what the Program does.
1. You may copy and distribute verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and give any other recipients of the Program a copy of this License along with the Program.
You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.
2. You may modify your copy or copies of the Program or any portion of it, thus forming a work based on the Program, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:
 - a) You must cause the modified files to carry prominent notices stating that you changed the files and the date of any change.
 - b) You must cause any work that you distribute or publish, that in whole or in part contains or is derived from the Program or any part thereof, to be licensed as a whole at no charge to all third parties under the terms of this License.
 - c) If the modified program normally reads commands interactively when run, you must cause it, when started running for such interactive use in the most ordinary way, to print or display an announcement including an appropriate copyright notice and a notice that there is no warranty (or else, saying that you provide a warranty) and that users may redistribute the program under these conditions, and telling the user how to view a copy of this License. (Exception: if the Program itself is interactive but does not normally print such an announcement, your work based on the Program is not required to print an announcement.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Program, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Program, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Program.

In addition, mere aggregation of another work not based on the Program with the Program (or with a work based on the Program) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may copy and distribute the Program (or a work based on it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you also do one of the following:
 - a) Accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,
 - b) Accompany it with a written offer, valid for at least three years, to give any third party, for a charge no more than your cost of physically performing source distribution, a complete machine-readable copy of the corresponding source code, to be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,
 - c) Accompany it with the information you received as to the offer to distribute corresponding source code. (This alternative is allowed only for noncommercial distribution and only if you received the program in object code or executable form with such an offer, in accord with Subsection b above.)

The source code for a work means the preferred form of the work for making modifications to it. For an executable work, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the executable. However, as a special exception, the source code distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

If distribution of executable or object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place counts as distribution of the source code, even though third parties are not compelled to copy the source along with the object code.

4. You may not copy, modify, sublicense, or distribute the Program except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense or distribute the Program is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.
5. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Program or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Program (or any work based on the Program), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Program or works based on it.
6. Each time you redistribute the Program (or any work based on the Program), the recipient automatically receives a license from the original licensor to copy, distribute or modify the Program subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties to this License.
7. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Program at all. For example, if a patent license would not permit royalty-free redistribution of the Program by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Program.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system, which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

8. If the distribution and/or use of the Program is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Program under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.
9. The Free Software Foundation may publish revised and/or new versions of the General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Program specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Program does not specify a version number of this License, you may choose any version ever published by the Free Software Foundation.

10. If you wish to incorporate parts of the Program into other free programs whose distribution conditions are different, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

NO WARRANTY

11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.
12. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

END OF TERMS AND CONDITIONS

Appendix: How to Apply These Terms to Your New Programs

If you develop a new program, and you want it to be of the greatest possible use to the public, the best way to achieve this is to make it free software which everyone can redistribute and change under these terms.

To do so, attach the following notices to the program. It is safest to attach them to the start of each source file to most effectively convey the exclusion of warranty; and each file should have at least the "copyright" line and a pointer to where the full notice is found.

<one line to give the program's name and a brief idea of what it does.>

Copyright (C) 19yy <name of author>

This program is free software; you can redistribute it and/or modify it under the terms of the GNU General Public License as published by the Free Software Foundation; either version 2 of the License, or (at your option) any later version.

This program is distributed in the hope that it will be useful, but WITHOUT ANY WARRANTY; without even the implied warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU General Public License for more details.

You should have received a copy of the GNU General Public License along with this program; if not, write to the Free Software Foundation, Inc., 675 Mass Ave, Cambridge, MA 02139, USA.

Also add information on how to contact you by electronic and paper mail.

If the program is interactive, make it output a short notice like this when it starts in an interactive mode:

```
Gnomovision version 69, Copyright (C) 19yy name of author
Gnomovision comes with ABSOLUTELY NO WARRANTY; for details type `show w'.
This is free software, and you are welcome to redistribute it under certain conditions; type `show c' for
details.
```

The hypothetical commands `show w' and `show c' should show the appropriate parts of the General Public License. Of course, the commands you use may be called something other than `show w' and `show c'; they could even be mouse-clicks or menu items--whatever suits your program.

You should also get your employer (if you work as a programmer) or your school, if any, to sign a "copyright disclaimer" for the program, if necessary. Here is a sample; alter the names:

Yoyodyne, Inc., hereby disclaims all copyright interest in the program `Gnomovision' (which makes passes at compilers) written by James Hacker.

```
<signature of Ty Coon>, 1 April 1989
Ty Coon, President of Vice
```

This General Public License does not permit incorporating your program into proprietary programs. If your program is a subroutine library, you may consider it more useful to permit linking proprietary applications with the library. If this is what you want to do, use the GNU Library General Public License instead of this License.

Busybox, the Linux IR control package, SquashFS and mtd-utils are subject to the GPL, a copy of which is included at item 2.

DirectFB, glibc, libusb-compat and libusb are subject to the following license:

[This is the first released version of the Lesser GPL. It also counts as the successor of the GNU Library Public License, version 2, hence the version number 2.1.]

Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public Licenses are intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users.

This license, the Lesser General Public License, applies to some specially designated software packages--typically libraries--of the Free Software Foundation and other authors who decide to use it. You can use it too, but we suggest you first think carefully about whether this license or the ordinary General Public License is the better strategy to use in any particular case, based on the explanations below.

When we speak of free software, we are referring to freedom of use, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish); that you receive source code or can get it if you want it; that you can change the software and use pieces of it in new free programs; and that you are informed that you can do these things.

To protect your rights, we need to make restrictions that forbid distributors to deny you these rights or to ask you to surrender these rights. These restrictions translate to certain responsibilities for you if you distribute copies of the library or if you modify it.

For example, if you distribute copies of the library, whether gratis or for a fee, you must give the recipients all the rights that we gave you. You must make sure that they, too, receive or can get the source code. If you link other code with the library, you must provide complete object files to the recipients, so that they can relink them with the library after making changes to the library and recompiling it. And you must show them these terms so they know their rights.

We protect your rights with a two-step method: (1) we copyright the library, and (2) we offer you this license, which gives you legal permission to copy, distribute and/or modify the library.

To protect each distributor, we want to make it very clear that there is no warranty for the free library. Also, if the library is modified by someone else and passed on, the recipients should know that what they have is not the original version, so that the original author's reputation will not be affected by problems that might be introduced by others.

Finally, software patents pose a constant threat to the existence of any free program. We wish to make sure that a company cannot effectively restrict the users of a free program by obtaining a restrictive license from a patent holder. Therefore, we insist that any patent license obtained for a version of the library must be consistent with the full freedom of use specified in this license.

Most GNU software, including some libraries, is covered by the ordinary GNU General Public License. This license, the GNU Lesser General Public License, applies to certain designated libraries, and is quite different from the ordinary General Public License. We use this license for certain libraries in order to permit linking those libraries into non-free programs.

When a program is linked with a library, whether statically or using a shared library, the combination of the two is legally speaking a combined work, a derivative of the original library. The ordinary General Public License therefore permits such linking only if the entire combination fits its criteria of freedom. The Lesser General Public License permits more lax criteria for linking other code with the library.

We call this license the "Lesser" General Public License because it does Less to protect the user's freedom than the ordinary General Public License. It also provides other free software developers Less of an advantage over competing non-free programs. These disadvantages are the reason we use the ordinary General Public License for many libraries. However, the Lesser license provides advantages in certain special circumstances.

For example, on rare occasions, there may be a special need to encourage the widest possible use of a certain library, so that it becomes a de-facto standard. To achieve this, non-free programs must be allowed to use the library. A more frequent case is that a free library does the same job as widely used non-free libraries. In this case, there is little to gain by limiting the free library to free software only, so we use the Lesser General Public License.

In other cases, permission to use a particular library in non-free programs enables a greater number of people to use a large body of free software. For example, permission to use the GNU C Library in non-free programs enables many more people to use the whole GNU operating system, as well as its variant, the GNU/Linux operating system.

Although the Lesser General Public License is Less protective of the users' freedom, it does ensure that the user of a program that is linked with the Library has the freedom and the wherewithal to run that program using a modified version of the Library.

The precise terms and conditions for copying, distribution and modification follow. Pay close attention to the difference between a "work based on the library" and a "work that uses the library". The former contains code derived from the library, whereas the latter must be combined with the library in order to run.

GNU LESSER GENERAL PUBLIC LICENSE

TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License Agreement applies to any software library or other program which contains a notice placed by the copyright holder or other authorized party saying it may be distributed under the terms of this Lesser General Public License (also called "this License").

Each licensee is addressed as "you".

A "library" means a collection of software functions and/or data prepared so as to be conveniently linked with application programs (which use some of those functions and data) to form executables.

The "Library", below, refers to any such software library or work which has been distributed under these terms. A "work based on the Library" means either the Library or any derivative work under copyright law: that is to say, a work containing the Library or a portion of it, either verbatim or with modifications and/or translated straightforwardly into another language. (Hereinafter, translation is included without limitation in the term "modification".)

"Source code" for a work means the preferred form of the work for making modifications to it. For a library, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the library.

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running a program using the Library is not restricted, and output from such a program is covered only if its contents constitute a work based on the Library (independent of the use of the Library in a tool for writing it). Whether that is true depends on what the Library does and what the program that uses the Library does.

1. You may copy and distribute verbatim copies of the Library's complete source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and distribute a copy of this License along with the Library.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Library or any portion of it, thus forming a work based on the Library, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:
 - a) The modified work must itself be a software library.
 - b) You must cause the files modified to carry prominent notices stating that you changed the files and the date of any change.
 - c) You must cause the whole of the work to be licensed at no charge to all third parties under the terms of this License.
 - d) If a facility in the modified Library refers to a function or a table of data to be supplied by an application program that uses the facility, other than as an argument passed when the facility is invoked, then you must make a good faith effort to ensure that, in the event an application does not supply such function or table, the facility still operates, and performs whatever part of its purpose remains meaningful.

(For example, a function in a library to compute square roots has a purpose that is entirely well-defined independent of the application. Therefore, Subsection 2d requires that any application-supplied function or table used by this function must be optional: if the application does not supply it, the square root function must still compute square roots.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Library, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Library, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Library.

In addition, mere aggregation of another work not based on the Library with the Library (or with a work based on the Library) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may opt to apply the terms of the ordinary GNU General Public License instead of this License to a given copy of the Library. To do this, you must alter all the notices that refer to this License, so that they refer to the ordinary GNU General Public License, version 2, instead of to this License. (If a newer version than version 2 of the ordinary GNU General Public License has appeared, then you can specify that version instead if you wish.) Do not make any other change in these notices.

Once this change is made in a given copy, it is irreversible for that copy, so the ordinary GNU General Public License applies to all subsequent copies and derivative works made from that copy.

This option is useful when you wish to copy part of the code of the Library into a program that is not a library.

4. You may copy and distribute the Library (or a portion or derivative of it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange.

If distribution of object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place satisfies the requirement to distribute the source code, even though third parties are not compelled to copy the source along with the object code.

5. A program that contains no derivative of any portion of the Library, but is designed to work with the Library by being compiled or linked with it, is called a "work that uses the Library". Such a work, in isolation, is not a derivative work of the Library, and therefore falls outside the scope of this License.

However, linking a "work that uses the Library" with the Library creates an executable that is a derivative of the Library (because it contains portions of the Library), rather than a "work that uses the library". The executable is therefore covered by this License.

Section 6 states terms for distribution of such executables.

When a “work that uses the Library” uses material from a header file that is part of the Library, the object code for the work may be a derivative work of the Library even though the source code is not.

Whether this is true is especially significant if the work can be linked without the Library, or if the work is itself a library. The threshold for this to be true is not precisely defined by law.

If such an object file uses only numerical parameters, data structure layouts and accessors, and small macros and small inline functions (ten lines or less in length), then the use of the object file is unrestricted, regardless of whether it is legally a derivative work. (Executables containing this object code plus portions of the Library will still fall under Section 6.)

Otherwise, if the work is a derivative of the Library, you may distribute the object code for the work under the terms of Section 6.

Any executables containing that work also fall under Section 6, whether or not they are linked directly with the Library itself.

6. As an exception to the Sections above, you may also combine or link a “work that uses the Library” with the Library to produce a work containing portions of the Library, and distribute that work under terms of your choice, provided that the terms permit modification of the work for the customer’s own use and reverse engineering for debugging such modifications.

You must give prominent notice with each copy of the work that the Library is used in it and that the Library and its use are covered by this License. You must supply a copy of this License. If the work during execution displays copyright notices, you must include the copyright notice for the Library among them, as well as a reference directing the user to the copy of this License. Also, you must do one of these things:

- a) Accompany the work with the complete corresponding machine-readable source code for the Library including whatever changes were used in the work (which must be distributed under Sections 1 and 2 above); and, if the work is an executable linked with the Library, with the complete machine-readable “work that uses the Library”, as object code and/or source code, so that the user can modify the Library and then relink to produce a modified executable containing the modified Library. (It is understood that the user who changes the contents of definitions files in the Library will not necessarily be able to recompile the application to use the modified definitions.)
- b) Use a suitable shared library mechanism for linking with the Library. A suitable mechanism is one that (1) uses at run time a copy of the library already present on the user’s computer system, rather than copying library functions into the executable, and (2) will operate properly with a modified version of the library, if the user installs one, as long as the modified version is interface-compatible with the version that the work was made with.
- c) Accompany the work with a written offer, valid for at least three years, to give the same user the materials specified in Subsection 6a, above, for a charge no more than the cost of performing this distribution.
- d) If distribution of the work is made by offering access to copy from a designated place, offer equivalent access to copy the above specified materials from the same place.
- e) Verify that the user has already received a copy of these materials or that you have already sent this user a copy.

For an executable, the required form of the “work that uses the library” must include any data and utility programs needed for reproducing the executable from it. However, as a special exception, the materials to be distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

It may happen that this requirement contradicts the license restrictions of other proprietary libraries that do not normally accompany the operating system. Such a contradiction means you cannot use both them and the Library together in an executable that you distribute.

7. You may place library facilities that are a work based on the Library side-by-side in a single library together with other library facilities not covered by this License, and distribute such a combined library, provided that the separate distribution of the work based on the Library and of the other library facilities is otherwise permitted, and provided that you do these two things:
 - a) Accompany the combined library with a copy of the same work based on the Library, uncombined with any other library facilities. This must be distributed under the terms of the Sections above.
 - b) Give prominent notice with the combined library of the fact that part of it is a work based on the Library, and explaining where to find the accompanying uncombined form of the same work.

8. You may not copy, modify, sublicense, link with, or distribute the Library except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense, link with, or distribute the Library is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.
9. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Library or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Library (or any work based on the Library), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Library or works based on it.
10. Each time you redistribute the Library (or any work based on the Library), the recipient automatically receives a license from the original licensor to copy, distribute, link with or modify the Library subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein.

You are not responsible for enforcing compliance by third parties with this License.

11. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Library at all. For example, if a patent license would not permit royalty-free redistribution of the Library by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Library.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply, and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

12. If the distribution and/or use of the Library is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Library under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.
13. The Free Software Foundation may publish revised and/or new versions of the Lesser General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Library specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Library does not specify a license version number, you may choose any version ever published by the Free Software Foundation.

14. If you wish to incorporate parts of the Library into other free programs whose distribution conditions are incompatible with these, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

NO WARRANTY

15. BECAUSE THE LIBRARY IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE LIBRARY, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE LIBRARY "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE LIBRARY IS WITH

YOU. SHOULD THE LIBRARY PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

16. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE LIBRARY AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE LIBRARY (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE LIBRARY TO OPERATE WITH ANY OTHER SOFTWARE), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

END OF TERMS AND CONDITIONS

How to Apply These Terms to Your New Libraries

If you develop a new library, and you want it to be of the greatest possible use to the public, we recommend making it free software that everyone can redistribute and change. You can do so by permitting redistribution under these terms (or, alternatively, under the terms of the ordinary General Public License).

To apply these terms, attach the following notices to the library. It is safest to attach them to the start of each source file to most effectively convey the exclusion of warranty; and each file should have at least the "copyright" line and a pointer to where the full notice is found.

<one line to give the library's name and a brief idea of what it does.>

Copyright (C) <year> <name of author>

This library is free software; you can redistribute it and/or modify it under the terms of the GNU Lesser General Public License as published by the Free Software Foundation; either version 2.1 of the License, or (at your option) any later version.

This library is distributed in the hope that it will be useful, but WITHOUT ANY WARRANTY; without even the implied warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU Lesser General Public License for more details.

You should have received a copy of the GNU Lesser General Public License along with this library; if not, write to the Free Software Foundation, Inc., 59 Temple Place, Suite 330, Boston, MA 02111-1307 USA

Also add information on how to contact you by electronic and paper mail.

You should also get your employer (if you work as a programmer) or your school, if any, to sign a "copyright disclaimer" for the library, if necessary. Here is a sample; alter the names:

Yoyodyne, Inc., hereby disclaims all copyright interest in the library 'Frob' (a library for tweaking knobs) written by James Random Hacker.

17. SQLite

All of the deliverable code in SQLite has been dedicated to the HYPERLINK "http://en.wikipedia.org/wiki/Public_Domain", public domain by the authors. All code authors, and representatives of the companies they work for, have signed affidavits dedicating their contributions to the public domain and originals of those signed affidavits are stored in a firesafe at the main offices of HYPERLINK "<http://www.hwaci.com>" Hwaci. Anyone is free to copy, modify, publish, use, compile, sell, or distribute the original SQLite code, either in source code form or as a compiled binary, for any purpose, commercial or non-commercial, and by any means.

The previous paragraph applies to the deliverable code in SQLite - those parts of the SQLite library that you actually bundle and ship with a larger application. Portions of the documentation and some code used as part of the build process might fall under other licenses. The details here are unclear. We do not worry about the licensing of the documentation and build code so much because none of these things are part of the core deliverable SQLite library.

All of the deliverable code in SQLite has been written from scratch. No code has been taken from other projects or from the open internet. Every line of code can be traced back to its original author, and all of those authors have public domain dedications on file. So the SQLite code base is clean and is uncontaminated with licensed code from other projects.

AVISO

CONTRATO DE LICENÇA DE SOFTWARE PARA O USUÁRIO FINAL

O PRESENTE CONTRATO DE LICENÇA DE SOFTWARE PARA O USUÁRIO FINAL (“CONTRATO”) É UM CONTRATO VINCULATIVO ENTRE VOCÊ (O “USUÁRIO”, PESSOA FÍSICA OU JURÍDICA) E A PHILIPS CONSUMER LIFESTYLE B.V., SOCIEDADE COMERCIAL DE RESPONSABILIDADE LIMITADA HOLANDESA, COM SEDE EM HIGH TECH CAMPUS 37, 5656 AE EINDHOVEN, PAÍSES BAIXOS, E AS SOCIEDADES POR SI PARTICIPADAS (DESIGNADAS, INDIVIDUAL E CONJUNTAMENTE, POR “PHILIPS”). PELO PRESENTE CONTRATO, É CONCEDIDO AO USUÁRIO O DIREITO DE UTILIZAR UM DETERMINADO SOFTWARE (O “SOFTWARE”), INCLUINDO A DOCUMENTAÇÃO DO USUÁRIO EM FORMATO ELETRÔNICO QUE POSSA TER SIDO FORNECIDA, SEPARADA OU CONJUNTAMENTE, COM UM COMPUTADOR PESSOAL OU UM PRODUTO PHILIPS (O “EQUIPAMENTO”). AO DESCARREGAR, INSTALAR OU, POR QUALQUER OUTRA FORMA, UTILIZAR O SOFTWARE, O USUÁRIO ESTARÁ ACEITANDO E CONCORDANDO EM OBRIGAR-SE POR TODOS OS TERMOS E CONDIÇÕES CONSTANTES DESTE CONTRATOS. O USUÁRIO QUE NÃO CONCORDAR COM AS CONDIÇÕES, NÃO DEVERÁ DESCARREGAR, INSTALAR NEM, POR QUALQUER OUTRA FORMA, UTILIZAR O SOFTWARE. SE O USUÁRIO TIVER OBTIDO O SOFTWARE NUM SUPORTE FÍSICO (POR EXEMPLO, EM CD) E NÃO ACEITAR ESTE CONTRATO, TERÁ DIREITO AO REEMBOLSO DO PREÇO PAGO PELO SOFTWARE, NO CASO DE O SOFTWARE TER SIDO VENDIDO SEPARADAMENTE, SE O USUÁRIO O DEVOLVER SEM QUE TENHA SIDO UTILIZADO, JUNTAMENTE COM A PROVA DO PAGAMENTO, NO PRAZO DE 30 DIAS A CONTAR DA DATA DE COMPRA; E TERÁ TAMBÉM DIREITO AO PREÇO PAGO PELO EQUIPAMENTO, NO CASO DE O SOFTWARE TER SIDO FORNECIDO JUNTAMENTE COM O EQUIPAMENTO, SE DEVOLVER O EQUIPAMENTO E O SOFTWARE, SEM QUE TENHAM SIDO UTILIZADOS, JUNTAMENTE COM A PROVA DO PAGAMENTO, NO PRAZO DE 30 DIAS A CONTAR DA DATA DE COMPRA.

- 1. Licença.** O presente Contrato atribui ao USUÁRIO um direito não exclusivo, intransmissível e não sub-licenciável, de instalar e utilizar, no Equipamento ou num computador pessoal, conforme seja aplicável, uma (1) cópia da versão específica do Software em formato codificado, tal como descrito na documentação do USUÁRIO, apenas para uso pessoal do USUÁRIO. Considera-se que o Software está “em utilização” quando estiver carregado na memória temporária ou permanente (RAM, disco rígido, etc.) do computador pessoal ou do Equipamento.
- 2. Propriedade.** O USUÁRIO neste ato adquire uma licença para utilização do Software, não o próprio Software. O presente Contrato apenas confere ao USUÁRIO o direito de utilização do Software; o USUÁRIO não adquire quaisquer outros direitos sobre o Software, explícitos ou implícitos, para além dos expressos no presente Contrato. A Philips e os respectivos licenciadores reservam para si todos os direitos, a propriedade, títulos e interesses sobre o Software ou relacionados com o mesmo, incluindo patentes, direitos de autor, segredos comerciais e outros direitos de propriedade intelectual, nele incluídos. O Software é protegido por legislação de direitos autorais, tratados internacionais e demais legislação de propriedade intelectual. Assim, salvo disposição em contrário neste Contrato, o USUÁRIO não está autorizado a copiar o Software sem autorização prévia da Philips por escrito, podendo contudo fazer uma (1) cópia do Software apenas por razões de segurança. Não é permitido copiar nenhum material impresso fornecido com o Software, nem imprimir mais do que um (1) exemplar da documentação do USUÁRIO fornecida em formato electrónico, podendo embora fazer-se uma (1) cópia do material impresso apenas por motivos de segurança.
- 3. Restrições da Licença.** Salvo disposição em contrário do presente contrato, o USUÁRIO não pode locar, sub-licenciar, vender, ceder, emprestar ou transmitir o Software por qualquer outra forma. O USUÁRIO não poderá manipular, decompor ou alterar o Software, ou permitir que terceiros o façam, exceto na medida em que normas legais imperativas contrariem tais restrições. Não é permitido remover do Software ou destruir qualquer identificação de produto, avisos de direitos de autor ou outros sinais privativos ou restrições do Software. Todos os avisos sobre propriedade, títulos, marcas e direitos de autor e restrições ou reservas de direitos têm de ser

reproduzidos na cópia de segurança do Software feita pelo USUÁRIO. Não é permitido modificar ou adaptar o Software, nem fundi-lo noutra programa ou criar trabalhos derivados com base no Software.

4. **Aviso Legal** O SOFTWARE FOI PROJETADO PARA AUXILIÁ-LO NA TRANSFERÊNCIA DE MATERIAIS SOBRE OS QUAIS VOCÊ DETENHA O COPYRIGHT OU TENHA OBTIDO PERMISSÃO PARA CAPTÁ-LOS E TRANSFERI-LOS DO DETENTOR DO COPYRIGHT. A MENOS QUE VOCÊ DETENHA O COPYRIGHT OU TENHA PERMISSÃO DO DETENTOR DO COPYRIGHT PARA CAPTÁ-LOS E TRANSFERI-LOS, VOCÊ PODERÁ ESTAR VIOLANDO A LEGISLAÇÃO DE DIREITOS AUTORAIS E FICAR SUJEITO AO PAGAMENTO DE INDENIZAÇÕES E OUTRAS REPARAÇÕES. SE VOCÊ NÃO TIVER CERTEZA QUANTO AOS SEUS DIREITOS, ENTRE EM CONTATO COM O SEU CONSULTOR JURÍDICO. VOCÊ ASSUME PLENA RESPONSABILIDADE PELO USO LEGAL E RESPONSÁVEL DO SOFTWARE.
5. **Aviso Legal de Terceiros e Limitações da WM-DRM:** WM-DRM: Provedores de conteúdo utilizam tecnologia de gerenciamento de direitos digitais da Microsoft para Windows Media ("WM-DRM") a fim de proteger a integridade de seus conteúdos ("Conteúdo Protegido") de modo a que não haja apropriação indébita de suas propriedades intelectuais, incluindo copyright, em tais conteúdos. Partes deste Software e de outros aplicativos de terceiros ("Software de WM-DRM") usam a WM-DRM para transferir ou executar Conteúdo Protegido. Se a segurança do Software de WM-DRM ficar comprometida, os proprietários do Conteúdo Protegido ("Proprietários de Conteúdo Protegido") poderão solicitar que a Microsoft revogue o direito do Software de WM-DRM de copiar, exibir, transferir e/ou executar Conteúdo Protegido. A revogação não altera a capacidade do Software de WM-DRM de executar conteúdo desprotegido. Uma lista de Softwares de WM-DRM revogados é enviada para o seu computador sempre que você baixar pela Internet uma licença para Conteúdo Protegido. A Microsoft também poderá, em conjunto com tal licença, baixar listas de revogação para o seu computador em nome dos Proprietários do Conteúdo Protegido. Os Proprietários de Conteúdo Protegido também poderão exigir que V.Sa. atualize alguns dos componentes de WM-DRM distribuídos com este Software ("Atualizações de WM-DRM") antes de acessar seus conteúdos. Quando você tentar executar tal conteúdo, o Software WM-DRM criado pela Microsoft irá notificá-lo de que é necessário fazer uma Atualização de WM-DRM e pedir o seu consentimento antes de permitir que seja baixada a Atualização de WM-DRM. O Software de WM-DRM criado pela Philips poderá fazer o mesmo. Se você rejeitar a atualização, não será capaz de acessar o Conteúdo Protegido que exige a Atualização de WM-DRM; porém, continuará capaz de acessar conteúdo desprotegido e Conteúdo Protegido que não exija a atualização.
6. **Software de Código Aberto.** (a) Este Software pode abranger software que se encontre sujeito às Condições do Código Aberto, tais como as mencionadas na documentação deste equipamento. O presente acordo não se aplica a este tipo de software como tal. (b) Os direitos decorrentes da licença do USUÁRIO não abrangem quaisquer direitos de utilização, distribuição ou criação de trabalhos derivados do Software, por forma a que o Software pudesse ficar sujeito às Condições do Código Aberto. "Condições de Código Aberto" significam as condições de qualquer licença que, directa ou indirectamente, (1) criem ou impliquem obrigações para a Philips, relacionadas com o Software e/ou trabalhos derivados do mesmo; ou (2) concedam ou impliquem a concessão de direitos ou isenções para terceiros ao abrigo dos direitos de propriedade intelectual ou direito sobre o Software ou trabalhos derivados do mesmo.
7. **Cessaçãõ.** O presente Contrato entra em vigor a partir da instalação do Software, ou da primeira utilização, e cessará (i) por vontade da Philips, com fundamento em descumprimento por parte do USUÁRIO de qualquer disposição do presente Contrato; ou (ii) mediante destruição de todas as cópias do Software e materiais com este relacionados que a Philips forneça ao abrigo da presente licença. Os direitos da Philips e os deveres do USUÁRIO permanecerão em vigor por períodos supervenientes a cessação do presente Contrato.
8. **Melhoramentos.** A Philips pode disponibilizar melhoramentos do Software, por sua exclusiva vontade, colocando-os num website ou por quaisquer outros meios. Tais melhoramentos podem ficar sujeitos às disposições do presente Contrato ou à aceitação de um outro contrato pelo USUÁRIO.
9. **Serviços de Apoio.** A Philips não tem qualquer obrigação de prestar apoio ou assistência técnica ("Serviços de Apoio") ao Software. Se a Philips prestar Serviços de Apoio, os mesmos serão regidos por acordo autónomo entre o USUÁRIO e a Philips.
10. **Garantia Limitada do Software.** A Philips fornece o Software no estado em que se encontra, sem qualquer garantia, exceto a de que o Software funcionará em conformidade com a documentação fornecida com o Software, pelo período de um ano após o primeiro descarregamento, instalação ou utilização do Software, dependendo do que

ocorra primeiro. Toda a responsabilidade da Philips e o único recurso do USUÁRIO no caso de descumprimento desta garantia consistirão, por exclusiva opção da Philips, (i) na devolução do preço pago pelo USUÁRIO pelo Software (se algum tiver havido); ou (ii) na reparação ou substituição do Software que não cumpra a garantia aqui descrita e que for devolvido à Philips, juntamente com a prova de compra. Esta garantia limitada será ineficaz se o defeito no Software for consequência de um acidente ou utilização ou aplicação incorrectas. Qualquer substituição do Software será assegurada pelo período restante da garantia original ou por trinta (30) dias, consoante o período que seja mais longo. Esta garantia limitada não será aplicável se o Software tiver sido disponibilizado sem custos para o USUÁRIO, para efeitos de teste.

- 11. EXCLUSÃO DE GARANTIAS.** SEM PREJUÍZO DO REFERIDO ANTERIORMENTE, A PHILIPS E OS RESPECTIVOS LICENCIADORES NÃO GARANTEM QUE O SOFTWARE FUNCIONARÁ SEM DEFEITOS OU QUE FUNCIONARÁ ININTERRUPTAMENTE, OU QUE CORRESPONDERÁ AOS PROPÓSITOS DO USUÁRIO. O USUÁRIO ASSUME TODA A RESPONSABILIDADE PELA ESCOLHA DO SOFTWARE PARA ALCANÇAR OS RESULTADOS PRETENDIDOS, BEM COMO PELA SUA INSTALAÇÃO, UTILIZAÇÃO E RESULTADOS OBTIDOS. A PHILIPS E OS RESPECTIVOS LICENCIADORES RECUSAM TODAS AS GARANTIAS E CONDIÇÕES, EXPLÍCITAS E IMPLÍCITAS, NA MEDIDA DO MÁXIMO QUE AS NORMAS LEGAIS IMPERATIVAS PERMITAM, INCLUINDO, SEM LIMITAÇÃO, GARANTIAS IMPLÍCITAS DE COMERCIALIZAÇÃO, ADEQUAÇÃO A UM DETERMINADO FIM, PRECISÃO E COMPLETUDE DOS RESULTADOS RELACIONADOS COM O SOFTWARE E COM OS RESPECTIVOS MATERIAIS QUE O ACOMPANHEM. NÃO SÃO PRESTADAS GARANTIAS CONTRA QUAISQUER INFRAÇÕES. A PHILIPS NÃO GARANTE QUE O USUÁRIO CONSIGA DESCARREGAR, ARMAZENAR, LER, TRANSMITIR E/OU REPRODUZIR CONTEÚDOS PROTEGIDOS.
- 12. LIMITAÇÃO DA RESPONSABILIDADE.** EM CASO ALGUM, PODERÃO A PHILIPS OU OS SEUS LICENCIADORES SER RESPONSÁVEIS POR QUAISQUER DANOS CONSEQUENCIAIS, ESPECIAIS, INDIRETOS, INCIDENTAIS, INCLUINDO PENAS OU SANÇÕES PUNITIVAS DE QUALQUER ESPÉCIE, INCLUINDO SEM LIMITAÇÃO, LUCROS CESSANTES OU PERDAS FINANCEIRAS, INTERRUPTÃO DE ATIVIDADE, PERDA DE INFORMAÇÃO E DADOS, PRIVAÇÃO DE USO OU QUALQUER OUTRA PERDA FINANCEIRA, MESMO QUE A PHILIPS OU OS RESPECTIVOS LICENCIADORES TENHAM SIDO INFORMADOS DA POSSIBILIDADE DE OCORRÊNCIA DE ALGUM DESSES DANOS. EM CASO ALGUM, A RESPONSABILIDADE TOTAL DA PHILIPS OU DOS RESPECTIVOS LICENCIADORES POR DANOS DECORRENTES DO PRESENTE CONTRATO SERÁ SUPERIOR AO PREÇO EFETIVAMENTE PAGO PELO SOFTWARE OU A CINCO (5,00) EUROS, DEPENDENDO DO MONTANTE QUE FOR MAIS ELEVADO.
- 13. Marcas.** Alguns dos produtos e designações da Philips utilizados no presente Contrato, no Software e nos documentos do USUÁRIO impressos, podem constituir marcas da Philips, dos respectivos licenciadores ou de terceiros. É proibida a utilização dessas marcas.
- 14. Exportação.** Não é permitida a exportação ou a reexportação, direta ou indireta, do Software para qualquer país onde se exija uma licença de exportação de acordo com a Lei de Administração de Exportações – “Export Administration Act” - , ou com qualquer outra lei ou regulamento semelhantes dos E.U.A, ou qualquer outra autorização pelo governo dos E.U.A, a menos que o USUÁRIO tenha previamente obtido a licença ou a autorização adequada. Ao descarregar ou instalar o Software, o USUÁRIO estará aceitando a presente cláusula de exportação.
- 15. Legislação aplicável.** O presente Contrato é regido pelas leis do seu país de residência, sem referência às respectivas normas sobre conflitos de leis. Qualquer litígio entre a Philips e o USUÁRIO relativamente ao presente Contrato estará sujeito à jurisdição não-exclusiva dos Tribunais do seu país de residência.
- 16. Cláusula geral.** O presente Contrato constitui todo o acordo entre o USUÁRIO e a Philips e substitui quaisquer declarações, estipulações ou outras comunicações prévias ou publicidade respeitantes ao Software e à documentação do USUÁRIO. Se qualquer parte do presente Contrato for declarada inválida, manter-se-ão em vigor as restantes disposições do mesmo. O presente Contrato não prejudica os direitos conferidos por normas legais imperativas a quem contrate como consumidor.
