More powerful TV sound

Hear more in everything you watch, and every track you love. 2.1 channels bring out the best in effects, score, and dialogue. The built-in subwoofer lets you feel the bass, whether you're listening to music or watching an action movie.

All your favorite sources

This compact soundbar lets you enjoy movies and music from all your sources. Pair a smart device with the soundbar to get bigger sound for playlists, podcasts, and more. Connect a wired music source via audio-in. Or play files directly from a USB drive.

Stadium EQ Mode

Experience the excitement of live sports, right there in your living room. Stadium EQ Mode immerses you in ambient crowd noise, just as if you were sitting in the stadium! Be thrilled by every crucial moment—and still hear crystal-clear commentary.

HDMI ARC

Why use two remotes when you can use just one? This soundbar connects to your TV via HDMI ARC, allowing you to control soundbar volume with the same remote you use for your TV.

Distinctive geometric design

The built-in subwoofer makes this a perfect soundbar for smaller spaces. The sleek trapezoid design looks great in any setting, and the included wall brackets keep your placement options open.
