

Philips  
Micro music system

• Dock for iPod/iPhone

DCM2055

## Sound that fits your home

Obsessed with sound

Let your portable music play on at home. This Philips micro sound system comes with a dock for the iPod/iPhone and with a USB Direct for portable devices. Whether wall-mounted or on a tabletop, the system simply looks sensational.

### Enrich your sound experience

- Bass Reflex Speaker System delivers a powerful, deeper bass
- Digital Sound Control for optimised music style settings
- Dynamic Bass Boost for deep and dramatic sound
- 15 W maximum output power

### Enjoy your music from multiple sources

- Play and charge your iPod/iPhone simultaneously
- Play MP3/WMA-CD, CD and CD-RW
- USB Direct for MP3/WMA music playback
- MP3 Link for portable music playback
- Digital tuning with preset stations for extra convenience
- Radio Data System for station information and data services

### Design that blends into your interior

- Wall-mountable option for flexible placement
- Motorised sliding front door adding style and elegance

# PHILIPS

# Highlights

## USB Direct

With the USB Direct mode, simply plug in your USB device to the USB port on your Philips device and your digital music will be played directly from the Philips device.

## MP3 Link

The MP3 link connectivity allows direct playback of MP3 content from portable media players. Besides the benefit of enjoying your favourite music in the superior sound quality delivered by the audio system, the MP3 link is also extremely convenient as all you have to do is to plug your portable MP3 player into the audio system.

## Wall-mountable

The perfect combination of a slim and versatile design, your Philips audio system is cleverly designed to blend into your living space. The base of the audio system is a stand so the

system can sit securely and nicely on any shelf or cabinet. When wall mounted you have all the same flexibility of the freestanding stand.

## Dynamic Bass Boost

Dynamic Bass Boost maximises your music enjoyment by emphasising the bass content of the music throughout the range of volume settings - from low to high - at the touch of a button! Bottom-end bass frequencies usually get lost when the volume is set at a low level. To counteract this, Dynamic Bass Boost can be switched on to boost bass levels, so you can enjoy consistent sound even when you turn down the volume.

## Radio Data System (RDS)

The Radio Data System (RDS) lets you tune into radio stations without having to remember the frequencies. In standard mode, RDS displays the station name instead of the transmission frequency, facilitating quick and easy tuning. RDS also allows stations to send text messages such as news and station information directly to the radio display. Commonly used in Europe, RDS text is sent out on the same frequency the radio station broadcasts on. You can choose either the basic RDS display (station name) or subscribe to additional text-based services.

## Bass Reflex Speaker System

Bass Reflex Speaker System delivers a deep bass experience from a compact loudspeaker box system. It differs from a conventional loudspeaker box system in the addition of a bass pipe that is acoustically aligned to the woofer to optimise the low frequency roll-off of the system. The result is deeper controlled bass and lower distortion. The system works by causing the air mass in the bass pipe to vibrate like a conventional woofer. Combined with the response of the woofer, the system extends the overall low frequency sounds to create a completely new dimension of deep bass.

## Play and charge your iPod/iPhone

Enjoy your favourite MP3 music while charging your iPod/iPhone! The dock lets you connect your portable device directly to the Docking entertainment system so you can listen to your favourite music in superb sound. It also charges your iPod/iPhone while it plays so you can enjoy your music and not have to worry about your portable player battery running out. The Docking entertainment system automatically charges your portable device while it is docked.

# Specifications

## Sound

- Sound enhancement: digital sound control, Dynamic Bass Boost
- Volume control: up/down
- Maximum output power (RMS): 15 W

## Loudspeakers

- No. of built-in speakers: 2
- Speaker drivers: 2.75" woofer
- Speaker types: bass reflex speaker system
