# Highlights

## USB-C port with PD

USB-C is the latest charging connector standard, which is now adopted by mobile devices such as cell phones, cameras and tablets. PD (Power delivery) is the USB standard for power delivery for more power and fast charging.

## Smart Protection

Smart protection against overheating, overvoltage and overcurrent

## Charger with GaN technology

Wall chargers that adopt GaN (Gallium Nitride) technology will use less electrical components with better heat performance. The compact chargers can provide more power with faster charging times. The increased power are capable to power deliver to modern laptops with USB-C connection.

## 50% charge in 30 min

Fast charging - Charge your mobile phone empty to 50% in 30 minutes time.

## Programmable Power Supply PPS

PPS (Programmable Power Supply) is a standard for fast charging technology for USB-C devices. This technology adjusts the voltage and current in real-time, depending on a device's charging status, feeding it with maximum power. A smart way to safely reduce charging time.
