SPC610NC/37

## Product highlights

### VGA @ 30 fps video quality

VGA (640x480) resolution at 30 frames per second video quality

### SVGA snapshot resolution

The SVGA resolution of your snapshots ensures sharp images for use in documents, webpages and e-mails.

### Works with all IM services

Add video to Yahoo!, MSN and AOL Messenger. This PC Camera also works with Windows Messenger and NetMeeting.

### Keyboard light

Lights, camera, action! The webcam's handy built-in light can be used to illuminate your laptop's keyboard, making working in dimly lit areas more enjoyable. It also makes video chatting in low light possible.

### Sliding lens cover

A sleeve on the webcam's body smoothly slides over the lens when the webcam is not in use for extra protection. The cover also slides down to reveal and activate the handy keyboard light.

### Bendable gooseneck

The bendable gooseneck stem plugs straight into the USB connector on your laptop or notebook and makes it easy to set the webcam to the ideal position. It also curls up for maximum portability, and it will not get tangled in your laptop bag.

### VLounge software

Software for capturing, managing and archiving snapshots and video clips in a very convenient way. With just a couple of mouse clicks you will be able to create and send Video mails. This software package provides all you need to take full advantage of your Philips PC Camera.

### XP Plug & Play

If you're a Windows XP end-user, you do not need to install product drivers before starting to use this PC peripheral / product.
