Designed for simplicity

- Low-rise profile for the perfect fit in front of your TV
- Touch panel for intuitive playback and volume control
- Philips companion app for easy network setup

PHILIPS

Features

Center-channel speaker

A centre-channel speaker dedicated especially to voice frequencies anchor speech to the centre of the screen. This offers improved voice positioning and clarity, increasing immersion in movies.

One-touch with NFC

Pair Bluetooth® devices easily with one-touch NFC (Near Field Communications) technology. Just tap the NFC enabled smartphone or tablet on the NFC area of a soundstage to turn the soundstage on, start Bluetooth® pairing, and begin streaming music.

2-way loudspeaker

2-way loudspeaker for the best clarity and explosive dynamic range

Google Cast

Enjoy high quality and seamless playback with your favorite music apps. This soundbar has Google Cast built-in so you can cast your favorite music apps from your personal device to your speakers. You can cast from your iPhone®, iPad®, Android phone and tablet, Mac® and Windows® laptop, or Chromebook.

Philips companion app

Use Philips HCWeSet Manager app to setup and connect your new speakers to your home wireless network and start enjoy the high quality audio and seamless playback experience from your favorite apps*. *It is mandatory to install the app for network setup, as well as services and privacy agreement before you can cast music wirelessly from your music apps. *To cast music from Spotify, You'll need Spotify Premium to use Connect

Spotify as a remote

Using Spotify Connect you can easily browse, explore, and play music from any room in the house using your smart device as a remote. With a direct Spotify connection, you can play music straight from the cloud so your smart device can be used for calls, videos or even go out of range without interrupting your music. This is also more battery friendly, since energy used for music is minimized. All the same great Spotify features are there, from its ready-made lists to its high sampling rates. Everything you need to discover new music and hear it at its best.
