- GTIN: 1 87 12581 47894 7
- Number of consumer packages: 2

Highlights

imagen Pro

The unique Philips imagen enhancement technology automatically analyses your photos to correct colour and adjust for optimal contrast. imagen Pro is a more advanced image enhancement which includes the 3 essential elements from imagen to have more colour accuracy, colour depth and smart contrast. On top of these, imagen Pro offers enhanced skin colour, sharper images and flicker-free photo viewing which is very important for still pictures.

4:3 perfect frame ratio

Philips digital PhotoFrame ensures your photo is displayed in 4:3 ratio for the best viewing experience.

Customise with snap-on frames

Two beautifully designed and cheerful frame accessories are included. Pink for girls and blue for boys — sweet dreams guaranteed. Simply snap on.

Automatic slideshow

Automatic slideshows start from any USB drive or memory card for all those times you don't want to spend time copying photos to your PhotoFrame.

Baby Animated Clock

Switch to this fun and colourful clock when you don't need to view photos. Instantly, your PhotoFrame becomes a clock. The Animated Kiddie Clock is ideal for children and it is a great tool for teaching them to tell the time.

RadiantColor

RadiantColor is an exclusive Philips technology for displaying smaller photos in the optimal 4:3 ratio by extending the colour on the edges of a less-than-full-screen photo to the sides of the screen, eliminating black bars and aspect ratio distortion.

Eco-friendly Photoframe

Philips PhotoFrames are designed and produced according to our EcoDesign principles aimed at minimising overall environmental impact through lower power consumption, removal of hazardous substances, lower weight, more efficient packaging and better recyclability.

SmartPower

A timer turns PhotoFrame on and off at the times you choose, reducing energy consumption for the sake of our environment and saving up to one third of your PhotoFrame energy costs.
