Dimensions

- **Set dimensions (W x H x D):**
150 x 150 x 220 mm
- **Main speaker dimensions (W x H x D):**
150 x 150 x 200 mm
- **Packaging dimensions (W x H x D):**
302 x 540 x 200 mm
- **Weight incl. Packaging:** 5.5 kg

Power

- **Power supply:** 100-240VAC, 50/60Hz

Product highlights

Class 'D' Amplifier

Class 'D' Digital Amplifier takes an analog signal, converts it into a digital signal and then amplifies the signal digitally. The signal then enters a demodulation filter to give the final output. The amplified digital output delivers all the advantages of digital audio, including improved sound quality. In addition, Class 'D' Digital Amplifier has greater than 90% efficiency compared to traditional AB amplifiers. This high efficiency translates into a powerful amplifier with a small footprint.
