- Main unit dimensions: 220x104x242 mm
- Speaker dimensions: 150x238x125 mm

PHILIPS

Highlights

All your music

This smart, compact music system lets you stream playlists and more in rich, room-filling sound. Dust off the classics in your CD collection thanks to a CD player that also plays MP3 CDs and recorded CDs. The digital radio tuner delivers crystal-clear reception, and you can set up to 20 presets for your favorite DAB+ or FM stations.

Rich sound with good bass

Bookshelf-style loudspeakers give you crisp high ends from dome tweeters, and good bass from 3" woofers and bass-reflex ports. 15 W maximum output brings decent sound to

smaller spaces: perfect for a home office, kitchen, or student bedroom.

Old school, meet new school

The two-tone central unit and speaker cabinets recall the design of hi-fi separates. The textured volume-control dial adds a satisfying analog feel to operation. There are buttons on top of the unit for pairing, source selection, and playback/tuning control.

Digital Sound Control

Hip-hop or choral, symphony or rock opera? Whatever you love, this micro system's Digital

Sound Control function lets you enjoy it more. Pick from preset sound styles designed to bring out the best in your music.

At home in your home

This AC-powered micro system looks great in any room. Bluetooth wireless range is 10 m, and you can charge a smart device via the USB port when the system is in standby mode. An easy-to-use remote puts key system functions at your fingertips—so you can control the mood without breaking the mood.
