- 2-band parametric equalizer with 8 presets
- Audio out for amplifier addition
- Built-in 45W x 4 amplifier for excellent sound quality

Design that blends into your car

- Diffused indicating light for easy CD insertion
- High contrast LCD for perfect viewing
- Browse by folder or song for instant search or quick access
- Detachable front panel and blackout for anti-theft security

PHILIPS

Highlights

DBB Dynamic Bass Boost

Activate the Dynamic Bass Boost (DBB), and the low-end bass frequencies are electronically enhanced to achieve consistent sound reproduction, especially when the speaker volume is set at a low level. You hear impressive bass at all times.

Diffused indicating light

Find difficulty inserting a CD into your car audio in the dark? With the innovative design from Philips, you will have a clear guide with lights spreading around the disc opening to help you insert a CD faster and easier.

High contrast LCD

High contrast LCD

Browse by folder or song

This function allows you to find a track or album much faster by letting you browse through songs and

folders, which are the usual contents of USB/SDHC devices. With the dedicated folder/song button, only three simple steps are needed to make a search – press folder/song, rotate the volume knob and push to select. This simple process lets you search through your music quickly and easily, letting you to focus on your driving.

USB Direct for MP3/WMA music

Simply plug in your device to the USB port on your Philips Hi-Fi system. Your digital music will be played directly from the device. Now you can share your favorite moments with family and friends.

Detachable front panel

Detachable front panel and blackout for anti-theft security
