Connectivity

- **Rear Connections:** Analogue audio Left/Right out, Composite video (CVBS) output, Digital coaxial out, ComponentVideo out Progressive

Convenience

- **Child Protection:** Parental Control, Child Lock
- **On-Screen Display languages:** English

Electricity

- **Power consumption:** < 10 W
- **Standby power consumption:** < 1 W
- **Power supply:** 230-240 V, 50 Hz

Accessories

- **Included Accessories:** 2 x AAA Batteries, Remote Control, User manual, Audio/Video cable, Power cord, World Wide Warranty leaflet

Dimensions

- **Set dimensions (W x H x D):** 435 x 38 x 210 mm
- **Packaging dimensions (W x H x D):** 490 x 82 x 296 mm

Product highlights

192 kHz/24-bit audio DAC

192 kHz sampling enables you to have an accurate representation of the original sound curves. Together with a 24-bit resolution, more information is captured from the original analogue sound wave form, giving a much richer audio reproduction.

Plays it all

Play MP3s, WMA and JPEGs, and experience the convenience of sharing media files on your TV or home theatre system - in the comfort of your living room.

Progressive Scan

Progressive Scan doubles the vertical resolution of the image resulting in a noticeably sharper picture. Instead of sending a field comprising the odd lines to the screen first, followed by the field with the even lines, it writes both fields at the same time. A full image is created instantaneously, using the maximum resolution. At such a speed, your eye perceives a sharper picture with no line structure.
