- DualDock to charge & play iPod/iPhone (Lightning & 30pin)

Enrich your sound experience

- 160W RMS total output power

Design that blends into your interior

- Unique tower design to fit your lifestyle

PHILIPS
Fidelio

Highlights

USB Direct

With the USB Direct mode, simply plug in your USB device to the USB port on your Philips device and your digital music will be played directly from the Philips device.

MP3 Link

The MP3 link connectivity allows direct playback of MP3 content from portable media players. Besides the benefit of enjoying your favorite music in the superior sound quality delivered by the audio system, the MP3 link is also extremely convenient as all you have to do

is to plug your portable MP3 player to the audio system.

DualDock to charge & play

Created to meld sleek styling with Lightning and 30-pin Apple device connectivity, the DualDock pops out when needed to reveal connectors and act as an iPhone/iPod stand.

Floor standing speakers

Fidelio Sound Towers are floor standing speakers that offer the optimum amount of acoustic volume for the creation of a rich and

pristine sound. They combine the mid-range accuracy of a traditional 2-way speaker design with bass extensions to support the low end of the sonic spectrum, making them ideally tuned for exquisite music reproduction.

Play MP3/WMA-CD, CD and CD-RW

Audio compression technology allows large digital music files to be reduced up to 10 times in size without radically degrading their audio quality. MP3 or WMA are two of the compression formats that let you enjoy a world of digital music on your Philips player. Download MP3 or WMA songs from authorized music sites on the Internet or create your own MP3 or WMA music files by ripping your audio CDs and transferring them onto your player.

Playback music via Bluetooth

Playback mobile phone and PC music via Bluetooth® wireless technology and aptX®

Specifications

iPod compatibility

- Compatible with: iPod nano 7th generation, iPod touch 5th generation, iPod classic, iPod nano 2nd generation, iPod nano 3rd generation, iPod nano 4th generation, iPod nano 5th generation, iPod nano 6th generation, iPod touch, iPod touch 2nd generation, iPod touch 3rd generation, iPod touch 4th generation
- via Bluetooth: iPod nano 7th generation, iPod touch 3rd generation, iPod touch 4th generation, iPod touch 5th generation
- via Lightning connector: iPod nano 7th generation, iPod touch 5th generation
