- Battery voltage: 9 V
- Number of batteries: 1

Highlights

Big display for easy reading

The large display enables easy readability of the content on the screen. Now you can read the time, date and alarm easily, even from a distance. It is ideal for the elderly or the visually restricted.

Dual alarm time

The Philips audio system comes with two alarm times. Set one alarm time to wake you up and the other to wake up your partner.

MW / FM tuner

Easy alarm/time set

Easy alarm/time set

Wake up to radio or a buzzer

Wake up to sounds from your favorite radio station or a buzzer. Simply set the alarm on your Philips Clock radio to wake you with the radio station you last listened to or choose to wake up with a buzzer sound. When the wake up time is reached, your Philips Clock radio will automatically turn on that radio station or trigger the buzzer to sound.

Sleep Timer

Sleep timer lets you decide how long you want to listen to music or a radio station of your choice before falling asleep. Simply set a time limit (up to 1 hour) and choose a CD or radio station to listen to while you drift off to sleep. The set will continue to play for the selected duration and then automatically switch off to a power-efficient, silent stand-by mode. Sleep Timer lets you fall asleep to your favorite CD or radio DJ without counting sheep or worrying about wasting power.

Repeat alarm
