- Packaging dimensions (W x H x D): 19.2 x 18.6 x 9.2 cm
- Gross weight: .33 kg
- Nett weight: .105 kg
- Tare weight: .225 kg

Outer Carton

- Outer carton (L x W x H): 40 x 30 x 22 cm
- Gross weight: 2.8 kg
- Nett weight: .63 kg
- Tare weight: 2.17 kg

Product dimensions

- Product dimensions (W x H x D): 4 x 5.6 x 1.2 cm
- Product dimensions with stand (W x H x D): 4 x 8.8 x 8.8 cm
- Weight (with stand): .105 kg

Highlights

5 megapixel snapshots

The technology enables 5 MP for photos and the quality is high enough for printing poster-sized images in high-resolution. With the special software enhancement you get even 2 MP for interpolated video streaming.

5x digital zoom

Zoom in and out to get the perfect framing for any image. You control the zoom entirely via the onscreen interface while you're looking at the image so you can adjust it perfectly.

60 frames per second video

Create natural-looking, full motion video at 60 frames per second. It's ideal for video-chatting with friends or high-quality home monitoring.

Built-in digital microphone

The built-in digital microphone allows you to talk naturally and freely or to add sound to a video clip recording.

Wide-angle lens

The wide-angle high quality glass lens gives you a bigger field of view. The wide-angle lens operates in the same way as a wide-angle photography lens and it gets more people in the video frame without any loss in video quality.

Automatic face tracking

The state-of-the-art camera software automatically detects your face and moves the lens to follow you as you move. You stay in the center of the image even if you move during a video conference. It gives you the freedom to express yourself and converse naturally.

Change Your Background

Replace your real-life background and fool your friends into thinking you're somewhere else! You can move around and chat as normal, while the software automatically fills in the background behind you. There are 15 great backgrounds to choose from, or you can upload and project your own favorite backdrop.

2GB storage capacity

A useful 2 GB gives you the capacity to swap and share much larger or more files via the USB port of your PC or laptop.

Fast data transfer

High-speed data transfer rates significantly cut annoying waiting time when you're copying large multimedia files to or from your computer's hard disk.

Easy to use software included

A complete software suite is included, which will run automatically from the USB flash drive and gives you access to useful features like, Password protection, File synchronization, Data compression, USB lost & found, and USB information. Additionally, it comes with a 30-day trial for Portable Microsoft Outlook Express, Favorites synchronization and No-trace internet browsing.
