FWT9200MUX

Powerful wireless music

Obsessed with sound

Listen to all your digital music via Bluetooth. Sass up music enjoyment on the FWT9200 with 2000W RMS/ 23800W PMPO, dual subwoofer for deep bass, multi-colored disco lights and UniSound for clear natural sound.

Powerful sound you can hear and feel

- 2000W RMS total output power / 23800W PMPO
- Dual subwoofers for superb deep bass
- MAX Sound for instant power boost
- Dual amplifier for better sound performance
- UniSound for natural and crystal-clear sound

Multiple source MP3 music

- Stream music wirelessly via Bluetooth™ from your smartphone
- Dual USB Direct for MP3 playback and transfer
- Rip music from CDs, radio and karaoke onto USB device
- Compatible with MP3-CD
- MP3 Link for portable music playback

Convenient and easy to use

- Connection for TV or DVD player
- Multiple color Lighting effect for your party mood enjoyment

PHILIPS

Highlights

Stream music via Bluetooth™

Bluetooth is a short range wireless communication technology that is both robust and energy-efficient. The technology allows easy wireless connection to iPod/iPhone/iPad or other Bluetooth devices, such as smartphones, tablets or even laptops. So you can enjoy your favorite music, sound from video or game wireless on this speaker easily.

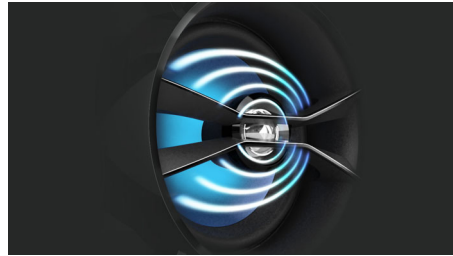

MAX Sound

MAX Sound technology produces an instant boost in bass, maximizing volume performance and instantly creating the most impressive listening experience with just the touch of a

button. Its sophisticated electronic circuitry calibrates existing sound and volume settings, instantly boosting bass and volume to maximum levels without distortion. The end result is a noticeable amplifying of both sound spectrum and volume and a potent audio boost that will add mileage to any music.

UniSound

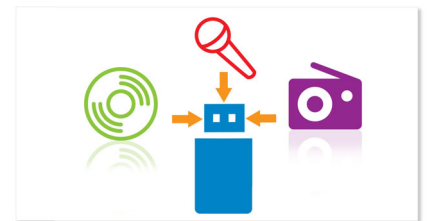

Get ready for music that is undeniably clearer and more natural. The UniSound technology harnesses acoustic design and engineering expertise to deliver sound the way it was meant to be heard. In conventional speakers, the tweeter and woofer deliver sound from different locations. This creates strong interferences that distort sound, resulting in unnatural, flat and stifled audio. UniSound frees music by placing the tweeter and woofer in unique positions and incorporating rigorous crossover engineering, vastly reducing interference and delivering natural sound that is true to the original.

MP3 Link

The MP3 link connectivity allows direct playback of MP3 content from portable media players. Besides the benefit of enjoying your favorite music in the superior sound quality delivered by the audio system, the MP3 link is also extremely convenient as all you have to do is to plug your portable MP3 player to the audio system.

Rip music onto USB device

Rip music from CDs, radio and karaoke onto USB device

Specifications

Sound

- Output Power: 2000W RMS/ 23800W PMPO
- Sound enhancement: MAX sound, Dynamic Bass Boost 3 steps, incredible surround, digital sound control 4 modes, virtual ambience control, UniSound

Loudspeakers

- Number of speaker boxes: 6
- Speaker drivers: 8" woofer, 2" tweeter
- Subwoofer types: 10" woofer, passive
- Speaker types: bass reflex speaker system

Audio playback
