Highlights

High Pixel Density Display

The very best high density screen shows off your treasured photos with the same 'real life' rich detail and vibrant colors as high quality prints.

Perfect digital color

Full color display brings out the best in your photos with vibrant, real life colors by displaying the same full range of colors found in professionally printed photos.

Smart Album

Smart Album allows you to create and manage albums, as well as to set up and adjust transition effects to your photo slideshows.

Smart photo storage

Smart photo storage employs smart software that minimizes required storage space without compromising photo display quality.

PhotoEffect Wizard

The PhotoEffect Wizard is an easy-to-use feature that allows you to rotate, zoom in, crop and even adjust photo color tones to black & white or sepia right within PhotoFrame.
