## Music, movies & entertainment

Just connect us to your notebook and we'll bring your music and sounds to life for a great listening experience. Volume control to ensure optimal sound level Handy cable management means you can have a tidy desk surface too!

### Really easy

- Hassle-free, space saving with 2.0 Channel Stereo
- Audio-in for easy portable music playback
- USB plug for power

### Experience true multimedia

- Easy to connect to either a PC or a laptop

### We can play with any media

- Enjoy music, games, movies and online videos

### Rich, complex sound

- 3W RMS total output power

# PHILIPS

# Specifications

## Connectivity

- Cable length: 1.5 m
- Connector: 3.5 mm stereo

## Packaging content

- Number of satellites: 2

## Audio system

- Frequency range: 60Hz-15KHz
- Input impedance: 10 ohm
- Output power in total: 3 W
- Power: 5 V DC

- Signal/Noise ratio: >70 dB
- THD: < 10 %

## Audio systems L/R channels

- Audio power amplifier: Class - AB Amplifier
- Channel separation: >50 dB
- Input sensitivity: 450 mV
- Rated output power: 1.5W X 2

## Left/Right speakers

- Driver power range: 1.5W x 2
- Frequency range: 60 Hz - 15KHz
- Nominal impedance: 4 ohm

# Highlights

## 3W RMS

This system has 3W RMS total output power. RMS refers to Root Mean Square which is a typical measurement of audio power, or rather, the electrical power transferred from an audio amplifier to a loudspeaker, which is measured in watts. The amount of electrical power delivered to the loudspeaker and its sensitivity determines the sound power that is generated. The higher the wattage, the better the sound power emitted by the speaker.

## USB plug for power

With plug-and-play convenience, the USB cable plugs directly into any USB port and your notebook automatically recognizes this as a removable USB mass storage device.

## AUDIO-IN (3.5mm)

Make one easy connection and enjoy all your music from portable devices and computers. Simply plug your device to the AUDIO-IN (3.5 mm) port on your Philips set. With computers, the connection is typically made from the headset output. Once linked, you can enjoy your entire music collection directly, on a set of superior speakers. Philips simply delivers better sound.

## Enjoy music/games/movies/video

The perfect accompaniment for your notebook and netbook, so you can play multimedia music and videos with great sound quality.
