- Wireless streaming from PC via UPnP

Easy navigation and control
- Music Follows Me: take your music with you from room to room
- Music Broadcast for simultaneous playback to all Stations

Quality sound performance
- Super Sound Panel for clear and deep bass sound
- Class 'D' digital amplifier for quality sound performance

PHILIPS

Wireless Music Station with My Room, My Music and Music Broadcast - Party mode!
Super Sound Panel

WAS7000/12

Highlights

Wireless streaming

With wireless streaming, you don't need to download and store large music files on our audio device. Instead, you can listen to favorite songs as they are continuously streamed to all the Music Stations - at the same time. Have your music follow you from room to room with Music Follows Me - no need to restart navigation and playback. Music Broadcast simultaneously broadcasts your desired music from the Center to all Stations. And with My Room, My Music, any family member can enjoy selected music from the stored collection in any room that is equipped with a Wireless Music Center or Station.

USB Direct

With the USB Direct mode, simply plug in your USB device to the USB port on your Philips device and your digital music will be played directly from the Philips device.

Universal Plug & Play

Universal Plug & Play is an industry standard technology that lets you connect to any Universal Plug & Play enabled device to receive or transmit music. Your Wireless Music Center utilizes Universal Plug & Play to ensure an easy and standard way to connect to other Universal Plug & Play enabled devices. You can easily connect your Wireless Music Center to other media devices to receive or to transfer content.

Super Sound Panel

Super Sound Panel is an innovative, flat speaker panel that uses cutting-edge technology to provide high quality, full-range audio from a flat and compact speaker unit.
