Philips
Cordless phone with
answering machine

30 min answering machine

4.6 cm display/white backlight
Handset speakerphone
2 handsets

D4752W

Smart Elegance

This exquisitely designed cordless phone boasts premium detailing alongside smart functions like an answering machine, large display, metal-plated keys and, of course, crystal-clear sound for perfect connections every time.

As convenient as it should be

- High-contrast 4.6 cm (1.8") graphical display
- Keypad backlight for fast access even in dark rooms
- Up to 30 minutes of messages on your answering machine
- Two-field entries for assigning 2 numbers to one contact
- Privacy settings: call block, silence mode, call barring
- Family Notes records audio messages for loved ones
- Up to 16 hours of talk time on a single charge
- Caller ID – so you always know who is calling*

Exceptional sound

- HQ-Sound: high quality acoustic engineering for superb sound
- MySound profiles to match your sound preference
- Freestanding handset with a speaker for easy hands-free calls

Eco-conscious product

- Low radiation and power consumption

PHILIPS

Cordless phone with answering machine
30 min answering machine 4.6 cm display/white backlight, Handset speakerphone, 2 handsets

Highlights

Caller ID*

Sometimes it's good to know who's calling before you answer. And our Caller ID lets you keep track of who's on the other end of the line.

Eco-conscious product

Philips phones are energy efficient and designed to be respectful to the environment.
Handset speakerphone

Hands-free mode uses a built-in loudspeaker to amplify the voice of the caller, allowing you to speak and listen during a call without holding the phone to your ear. This is especially useful if you want to share the call with others or simply multitask.
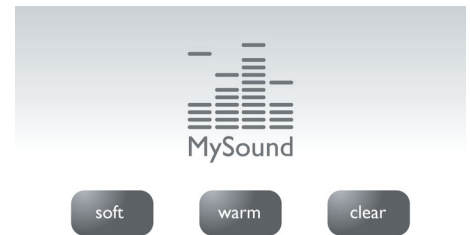

HQ-Sound

Philips cordless phones with HQ-Sound build upon decades of experience and breakthrough innovations in developing Hi-Fi audio products and high-end headphones to deliver excellent voice clarity on our DECT phones. When it comes to improving sound quality, our acoustics engineers and architects have thought of everything – high-quality components, digital signal processing, precise acoustic design, advanced testing and fine-tuning. The result is sound that is crisp, clear and authentic. Sound so good and natural, it is almost like being there in person.
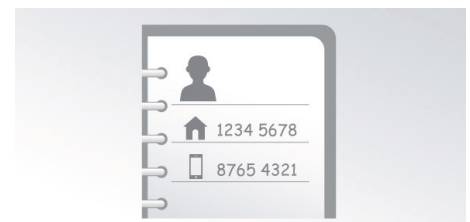

Multiple privacy settings

Blacklist restricts calls from specific numbers or numbers starting with certain digits, keeping unwanted calls away. You can block 4 sets of numbers. Each set of numbers can consist of 1 to 24 digits. When there is an incoming call from a number starting with one of these numbers or from one of 4 exact Caller numbers, the phone will not ring. With silence mode you can disable the ringtones at specific times to enjoy peace and silence. Thanks to Call barring, you can avoid expensive phone bill surprises by blocking calls to specific numbers starting with certain digits.

MySound profiles

Sound perception is subjective, and everyone has their own listening preference. MySound brings personality back to every conversation by allowing you to choose the audio profile that best matches your sound preferences: Clear—to make voices sound crisper and clearer; Soft—for friendly, softer tones; Warm—to make voices sound welcoming and warm.

Two-field phonebook entries

These days most people have multiple contact numbers. Our contact list makes it easier for you to manage your phone contacts. Simply save two phone numbers from a choice of three different field names: home, work and mobile.

Up to 16 hours talk time

Up to 16 hours of talk time on a single charge
