Surge protector

PowerSquid
5 outlets

SPR5510

TV/DVD/Portable Power Protection

918 Joules/36,000 Ampere

This surge protector offers flexible power. Engineered to be the most sophisticated and complete power multiplier, its flexible arms transform the static power strip into a dynamic power delivery device.

Built-in convenience

- 1 m power cord
- Power indicator light
- Right angle plug
- 5 flexible outlets
- Protection indicator light

Dependable protection

- £50,000 equipment warranty
- V3 Advanced Surge Technology
- Power blocker
- 40 dB EMI/RFI noise filtration
- Master on/off switch

Ideal for coax and broadband

- Coax line protection

PHILIPS

Specifications

Packaging dimensions

- Packaging dimensions (W x H x D):
17.1 x 48.3 x 10.2 cm
- Nett weight: 1.179 kg
- Gross weight: 1.338 kg
- Tare weight: .159 kg

Outer Carton

- Outer carton (L x W x H): 50.5 x 19.1 x 32.7 cm
- Nett weight: 3.537 kg
- Gross weight: 4.014 kg
- Tare weight: .477 kg

Highlights

£50,000 equipment warranty

Protects your connected equipment for the life of the product.

V3 Advanced Surge Technology

This new surge protection technology provides 27% greater surge protection capacity and better heat dissipation for safe, more reliable and longer lasting surge protection.

Power blocker

This automatic shutdown technology senses when the device has reached capacity and automatically shuts down electricity to your equipment. It protects against subsequent surges, even if you are not present

40 dB EMI/RFI noise filtration

Built-in filtering technology ensures the best performance from your components. It guards against signal interference and loss of data. The higher the dB rating the better the noise reduction.

1 m power cord

Provides power to the unit which can be 1m from the AC outlet.

Master on/off switch

This master switch controls power to the outlets on the surge protector.

Power indicator light

This LED alert lights up to indicate that the surge protector is drawing power from the AC outlet.

Coax line protection

Connectors route the coaxial signal through the surge protector to protect against surges and spikes.

5 flexible outlets

Five outlets on separate cords that are all adapter spaced accommodate multiple devices without crowding.

Protection indicator light

This LED alert lights up to indicate the surge protector is working properly.
