CD1952B

Bringing people closer

Keep it simple

Designed for complete simplicity, this phone gives you all the benefits of long-lasting ergonomic comfort, and great sound reproduction. With easy installation, inbuilt answering machine, and an intuitive menu, it is simplicity itself.

Crystal clear sound

- Advanced sound testing and tuning for superb voice quality
- The Parametric Equaliser delivers pure and clear sound
- Automatic Volume Control offsets unwanted volume variation
- Optimised antenna layout for great reception in any room

Nice and simple

- Up to 15 min. message on your answering machine
- Ultimate convenience through easy setup
- Easy to read 4.1 cm (1.6") display with amber backlight
- Save up to 50 of your favourite contacts in your phonebook
- Caller ID — so you always know who is calling
- Up to 16 hours of talk time

Eco-conscious product

- Low power consumption: < 0.65 W in standby mode
- Up to 95% reduction of emitted radiation in charging mode

PHILIPS

Cordless phone with answering machine
1000-series Black

Highlights

Advanced sound testing

We test the sound quality of our DECT phones the same way as high-end headphone manufacturers do. Using an advanced ear simulator, we can accurately re-create the way people actually hear. This helps our acoustic engineers to measure and fine-tune things like frequency response, distortion and overall hearing perception, to create perfect voice reproduction for both handset and hands-free modes.

Parametric Equaliser

Our telephones use parametric equalisation in the digital sound processing to fine tune the sound response back to the intended linear frequency response curve, delivering sound that is pure and clear, for each conversation.

Automatic Volume Control

Automatic Volume Control offsets variations in sound signal, which can be caused by

distance, signal strength or the caller's phone — so what you hear always remains consistent. Reducing the audio amplification for strong signals, and increasing it for weak ones, means you can enjoy a smooth conversation without unwanted sound volume variation.

Up to 15 min. recording

With up to 15 minutes recording time, you'll never miss an important message.

4.1 cm (1.6") display

Easy to read 4.1 cm (1.6") display with amber backlight

Easy setup

Ultimate convenience through easy set up. Simplified installation - Plug and Play product

CD1952B/22

50-name phone book

Always have the phone numbers of your loved ones available: Save up to 50 names in your phonebook.

Caller ID

Sometimes it's good to know who's calling before you answer. And our Caller ID lets you keep track of who's on the other end of the line.

Optimised antenna layout

Our optimised antenna layout ensures strong and stable reception, even in areas of the house where cordless transmission is difficult. Now you can take a call wherever you are in the house, and enjoy a long, uninterrupted conversation even as you walk around.

Specifications

Sound

- Volume control on handset
- Ringtones on handset: 10 standard

Picture/Display

- Display size: 4.1 cm/1.6"
- Display type: Black and White; alphanumeric
- Backlight: Yes
