AJ3226

Start your day, your way!

Wake up with radio or buzzer

This stylish Philips clock radio, with dual alarm, helps you start your day with your favorite radio station or a gentle alarm. A convenient cable also allows you to plug-and-play your portable music system right at your bedside.

Start the day your way

- Wake up to your favorite radio tune or a buzzer
- Dual alarm to wake you and your partner at different times
- Repeat alarm for additional snooze

Easy to use

- FM/MW tuner for radio enjoyment
- Sleep timer for easy falling asleep to your favorite music
- Battery back-up ensures memory of time during power failure
- MP3 Link for portable music playback

PHILIPS

Highlights

Wake up to radio or a buzzer

Wake up to sounds from your favorite radio station or a buzzer. Simply set the alarm on your Philips Clock radio to wake you with the radio station you last listened to or choose to wake up with a buzzer sound. When the wake up time is reached, your Philips Clock radio will automatically turn on that radio station or trigger the buzzer to sound.

Dual alarm

The Philips audio system comes with two alarm times. Set one alarm time to wake you up and the other time to wake up your partner.

Repeat alarm

To counter oversleeping, the Philips Clock radio has a snooze feature. Should the alarm ring and you wish to continue sleeping a bit longer, simply press the Repeat Alarm button once and go back to sleep. Nine minutes later the alarm will ring again. You can continue to press the Repeat Alarm button every nine minutes until you turn off the alarm altogether.

FM/MW tuner

FM/MW (AM) stereo tuner

Sleep Timer

Sleep timer lets you decide how long you want to listen to music or a radio station of your

choice before falling asleep. Simply set a time limit (up to 2 hours) and choose a CD or radio station to listen to while you drift off to sleep. The set will continue to play for the selected duration and then automatically switch off to a power-efficient, silent stand-by mode. Sleep Timer lets you fall asleep to your favorite CD or radio DJ without counting sheep or worrying about wasting power.

Battery back-up

Battery back-up ensures memory of time during power failure

MP3 Link

The MP3 link connectivity allows direct playback of MP3 content from portable media players. Besides the benefit of enjoying your favorite music in the superior sound quality delivered by the audio system, the MP3 link is also extremely convenient as all you have to do is to plug your portable MP3 player to the audio system.
