Product highlights

30 frames per second video

With a 30 frames per second refresh rate you will enjoy natural-looking and full motion video calls without jumpy images some webcams produce.

VGA snapshot resolution

The VGA resolution of your snapshots ensures sharp images for use in documents, webpages and e-mails.

Works with all IM services

Add video to Yahoo!, MSN and AOL Messenger. This PC Camera also works with Windows Messenger and NetMeeting.

External microphone included

With a separate external microphone, you have the freedom to place it where it best picks up your voice for relaxed on-line video chatting.

VLounge software

Software for capturing, managing and archiving snapshots and video clips in a very convenient way. With just a couple of mouse clicks you will be able to create and send Video mails. This software package provides all you need to take full advantage of your Philips PC Camera.

VLounge QuickLaunch button

To start up VLounge simply press the QuickLaunch button

Snapshot button

With just one press of this button, your webcam takes a picture automatically - ready for adding to e-mails, web pages or documents.

Rotating lens

Rotating lens for perfect aiming and natural images. You can get the right camera angle quickly and easily without having to put things underneath it to change the tilt.
