Bring power to your tunes

Listen to all the digital music on your Smartphone via Bluetooth, or MP3-CD and CD-R/W on one Philips Micro system. Bass Reflex speakers deliver dramatic bass and a 70W maximum output brings powerful sound.

Enjoy your music from multiple sources
- USB Direct for easy MP3 music playback
- Play MP3-CD, CD and CD-R/RW
- Audio-in for portable music playback
- Stream music wirelessly via Bluetooth™ from your smartphone

Enrich your sound experience
- 70W RMS maximum output power
- Bass Reflex Speaker System delivers a powerful, deeper bass
- Digital Sound Control for optimized music style settings

Easy to use
- Motorized CD loader for convenience access
- Digital tuning with preset stations for extra convenience

PHILIPS

Highlights

USB Direct for easy MP3 music

USB Direct

Thanks to the complete file transferability, you can easily enjoy the convenience and fun of accessing more digital music via the built-in USB Direct.

Audio-in

The Audio in connectivity allows direct playback of Audio in content from portable media players. Besides the benefit of enjoying your favorite music in the superior sound quality delivered by the audio system, the Audio in is also extremely convenient as all you have to do is to plug your portable MP3 player to the audio system.

Bass Reflex Speaker System

Bass Reflex Speaker System delivers a deep bass experience from a compact loudspeaker box system. It differs from a conventional loudspeaker box system in the addition of a bass pipe that is acoustically aligned to the woofer to optimize the low frequency roll-off of the system. The result is deeper controlled bass and lower distortion. The system works by resonating the air mass in the bass pipe to vibrate like a conventional woofer. Combined with the response of the woofer, the system extends the overall low frequency sounds to create a whole new dimension of deep bass.

Digital Sound Control

Digital Sound Control offers you a choice of pre-set Jazz, Rock, Pop and Classic controls you can use to optimise the frequency ranges for different musical styles. Each mode uses graphic equalizing technology to automatically adjust the sound balance and enhance the most important sound frequencies in your chosen music style. Ultimately, Digital Sound Control makes it easy for you get the most out of your music by precisely adjusting the sound balance to match the type of music you are playing.

Stream music via Bluetooth™

Bluetooth is a short range wireless communication technology that is both robust and energy-efficient. The technology allows easy wireless connection to iPod/iPhone/iPad or other Bluetooth devices, such as smartphones, tablets or even loptops. So you can enjoy your favorite music, sound from video or game wireless on this speaker easily.

Specifications

Sound
- Sound enhancement: digital sound control
- Maximum output power (RMS): 70W

Loudspeakers
- Loudspeaker types: Dome tweeter
- Main Speaker: 2 way, 4" woofer, Bass Reflex Speaker System
