- Mains power: AC 220-240V - 50Hz
- Number of batteries: 2
- Standby time: Up to 150 hours
- Talk time: Up to 12 hours

Highlights

Polyphonic ringtones

A polyphonic ringtone means that the phone can play many tones simultaneously, so that an accurate musical performance is possible, and when played through the phone's speaker these polyphonic ringtones sound like real music.

Free intercom

No need to stop what you are doing and go to give the handset to your son when his friend calls: you can freely and easily call the handset in his bedroom and transfer the call.

Plug & Play pack - 2 handsets

The unique soft touch feel ensures that the phone lies perfectly within your hand and increases comfort while calling.

Backlit LCD display

Backlit LCD display

Selectable wallpapers

An illustration is worth more than a thousand words. Scroll through the selection of images integrated into the handset. Select the one that best suits your mood of the day and have it displayed as a background on your screen.

Icon-driven color menu

All functions are grouped into several menu items that are symbolized by a colored icon. This facilitates navigation and use of the phone.

Speakerphone - Talk handsfree

Handsfree mode uses a built-in loud speaker to amplify the voice of the caller, allowing you to speak and listen during a call without holding the phone to your ear. This is especially useful if you want to share the call with others or take notes during a call.

Virtually interference free

Thanks to an advanced digital technology, calls are undisturbed by interferences from other devices.
