- Parents to share monitors

Easy, safe and secure

- Easy set-up of Wi-Fi baby monitor via QR code
- PVC-BFR free power cables and monitor
- Video encrypted for secure connection

PHILIPS

Highlights

Continuous audio streaming

In.Sight wireless HD baby monitor streams audio continuously even when your iPhone or iPad is locked or when you are docking or charging your iPhone or iPad.

Easy set-up via QR code

Set-up is simple with the app. The app will generate a QR code for your home Wi-Fi settings. With the QR code, the monitor will automatically pair with your Wi-Fi network, easily and instantly.

Encrypted direct networking

In.Sight wireless monitor uses highly secure encryption to provide you with privacy at all times. In.Sight wireless monitor uses a unique encryption key each time it makes a connection, providing you a highly secure connection each time you look at your loved ones.

HD video quality

In.Sight wireless HD baby monitor allow you to watch your baby in vivid detail. View videos in high definition 720p quality. The "720" refers to the number of horizontal lines of resolution on the screen. The "p" stands for progressive scan or the sequential appearance of the lines

in each frame. With 720p resolution, videos are sharper and more true-to-life.

Parents talk via iPhone/iPad

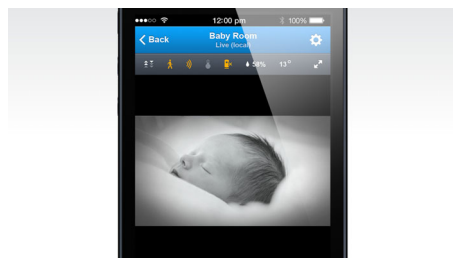

With In.Sight wireless HD baby monitor, you can talk to your baby anytime you want. Simply press "talk" on your iPhone or iPad and sing her a nursery rhyme. Watch as she falls asleep in your soothing voice.

Multi-user mode

Share monitors with your spouse, family, friends and even your baby sitters. The app lets you share each monitor with two other users so that they have access to live videos and sound via their smartphones as well. You can even upgrade the app to share the monitor with up to 10 users.

Night vision mode

Night vision mode allows you to see your baby's lovely face in the dark. Infrared light goes on for the monitor to capture clear black and white video when it is dark. Night vision mode switches on and off automatically, or you can adjust it manually.

Noise and motion alerts

It's impossible to predict when something might happen to your baby. In.Sight wireless

HD baby monitor keeps watching with adjustable noise and motion detection. You will be alerted anytime noise or motion is detected. Automatically receive push notifications on your iPhone or iPad when the monitor detects motion or noise.

Temperature & humidity sensor

Temperature and humidity sensors on In.Sight wireless HD baby monitor show temperature and humidity level on your iPhone or iPad. The humidity sensor measures humidity level, for instance, detecting dry air that may irritate baby's throat. The app will even alert you when the temperature is too high/low.

PVC and BFR-free

In.Sight wireless HD baby monitor is free from brominated flame retardant (BFR) and polyvinyl chloride (PVC). It adheres to the stringent safety standards for infant utensils and is absolutely baby-proof, safe and eco-friendly.

CES 2013 Innovations Awards

Honoree in the Tech For A Better World
Philips In.Sight wireless baby monitor is simply the

ideal nursery accessory for the smartphone generation. It gives full reassurance to young parents that they can easily monitor their baby via their iPhone or iPad. Ingeniously simple, it takes only a matter of minutes to set up via QR code. With 720p HD video quality, parents can always see their baby in clear detail. Night vision mode monitors baby when it is dark. With continuous audio feature parents can always listen to their baby even when their iPhone or iPad is locked.
