⚠ Important safety instructions

Warning
· The electrical network is rated as dangerous. The only way to turn off the charger is to unplug the power at the outlet. You must therefore ensure that the electrical outlet is always easily accessible.
· Refer to the safety information before using the product.
· Hereby, MMD Hong Kong Holding Limited declares that this product is in compliance with the essential requirements and other relevant provisions of Directive RED 2014/53/EU.

Head, trunk and limb SAR value
· Philips handsets: < 0.1W/kg

· Use only the power supply type listed in the user instructions.
· Use only the battery type listed in the user instructions.
· Do not allow the product to come into contact with liquids.
· Risk of explosion if an incorrect battery type is inserted in the device.
· Dispose of used batteries according to the instructions.
· When the handset rings or when the handsfree is activated, keep the handset away from your ear to avoid hearing damage.

2 Follow on-screen instructions.

Record an announcement (for D475 only)
1 Press **[Menu]** > **[Answering machine]** > **[Announcement]**.
2 Follow on-screen instructions.

Information on the safety of users and non-users:
Compliance with specific usage restrictions on certain places (hospitals, planes, petrol stations, schools...). Precautions to be taken by electronic implants wearers (cardiac stimulators, insulin pumps, neurostimulators...), concerning in particular the distance between the radio equipment and the implant (15 centimeters in the case of the strongest sources of exposure such as mobile phones).

Information on the behaviors to follow to reduce exposure to radiation emitted by equipment:
Use your device in good reception conditions to reduce the amount of radiation received. Make reasoned use of radio equipment, such as mobile phones by children and teens, for example by avoiding night-time communications and limiting the frequency and duration of calls. Keep radio equipment away from the womb of pregnant women. Keep radio equipment away from teenagers' lower abdomens.

? Frequently Asked Question

No signal bar is displayed on the screen.
- The handset is out of range. Move it closer to the base station.
- If the handset displays **[Regist. your handset]**, register your handset. (See the section on "Register additional handsets").

If I fail to pair (register) the additional handsets to the base station, what do I do?
Your base memory is full. Access ▭ > **[Services]** > **[Unregister]** to unregister the unused handsets and try again.

I have chosen a wrong language which I cannot read, what do I do?
1 Press ☎ to go back to the standby screen.
2 Press ▭ to access the main menu screen.
3 The following options will appear on the screen:

[Phone setup] > [Language]
[Réglages] > [Langue]
[Telefon-Setup] > [Sprache]
[Config. telef.] > [Lingua]
[Tlfn ayarları] > [Dil]

4 Select them to access the language options.
5 Select your own language.

My handset is in searching or unavailable status, what do I do?
- Make sure that the base station has power supply.
- Register the handset to the base station.
- Move the handset closer to the base station.

I cannot change the settings of my voice mail. What do I do?
The voice mail service is managed by your service provider but not the phone itself. Contact your service provider to change the settings.

No display
- Make sure the batteries are charged.
- Make sure there are power and phone connections.

The handset on the charger does not charge.
- Make sure the batteries are inserted correctly.
- Make sure the handset is placed properly on the charger. The battery icon animates when charging.
- Make sure the docking tone setting is turned on. When the handset is placed correctly on the charger, you can hear a docking tone.
- The charging contacts are dirty. Disconnect the power supply first and clean the contacts with a damp cloth.
- Batteries are defective. Purchase new ones with the same specifications.

Bad audio (crackles, echo, etc.)
- The handset is almost out of range. Move it closer to the base station.
- The phone receives interference from the nearby electrical appliances. Move the base station away.
- The walls are too thick. Move the base station away.

The handset does not ring.
Make sure the handset ringtone is turned on.

The caller ID does not display.
- The service is not activated. Check with your service provider.
- The caller's information is withheld or unavailable.
