Product highlights

Plug & Play pack - 4 handsets

A convenient Plug & Play phone package including a base and 4 handsets.

Free intercom

No need to stop what you are doing and go to give the handset to your son when his friend calls: you can freely and easily call the handset in his bedroom and transfer the call.

Message-counter on Base

Just look at the base station to instantly know whether you have received any messages.

TAM control from the base

Listening or deleting messages is as simple as pressing one key on the base station.

15-minute recording time

Crystal Clear Sound Quality

The use of digital communication virtually eliminates interference, buzzing and hissing. It improves the intelligibility of messages left on the answering machine and even makes it possible for users to record and reproduce music.

Hands free on handset

The hands free speaker phone lets you hold a conversation while you're busy doing something else. With both the speaker and the microphone in front of the handset, it is just like talking face to face with your correspondent.

Polyphonic ringtones

A polyphonic ringtone means that the phone can play many tones simultaneously, so that an accurate musical performance is possible, and when played through the phone's speaker these polyphonic ringtones sound like real music.

Name and number display

The alphanumeric display offers the possibility to display numbers as well as letters, and lets to assign a name to a number.

Backlit LCD display

Ergonomic Design

The smooth rounded shaped handset fits perfectly in your hand for natural, balanced operation. It looks great too!
