- HDMI ARC to access all the sound from your TV
- Connect to one HDMI in for great picture and sound quality

Richer sound for watching TV and movies

- Virtual Surround Sound for a realistic movie experience
- Dual reflex system for impactful bass
- Dolby Digital and DTS for great surround sound
- Premium soft dome tweeters for Crystal Clear Sound
- Powerful 320-W sound output

PHILIPS

Soundbar speaker

2.1 CH wireless slim subwoofer Bluetooth® aptX, AAC and NFC, 1 HDMI in and HDMI out ARC, Only 29.8-mm slimness

Highlights

Dual reflex system

Most subwoofers on the market use a single bass port and a single driver, but for bigger and clearer bass, two bass ports are needed. The larger volume of open space created by two bass ports increases airflow, which reduces distortion while simultaneously allowing more bass to be created. With two 6.5" drivers and two bass ports, the dual bass reflex system far surpasses the bass created by a normal subwoofer.

Premium soft dome tweeters

With Philips' Crystal Clear Sound, you will now be able to discern and appreciate every sound detail the way it's meant to be heard and as the artist or director intended! Crystal Clear Sound reproduces the sound source—whether it's an action film, a musical or a live performance—faithfully, precisely and without any distortion. Philips home theatres with Crystal Clear Sound keep audio processing to a minimum, preserving the purity of the original audio content. The result is greater sonic accuracy delivered to your ears.

Bluetooth® (aptX® and AAC)

Bluetooth® (aptX® and AAC) for wireless music streaming

NFC technology

Pair Bluetooth devices easily with one-touch NFC (Near Field Communications) technology. Just tap the NFC-enabled smartphone or tablet on the NFC area of a speaker to turn the speaker on, start Bluetooth pairing and begin streaming music.

HDMI ARC

HDMI ARC to access all the sound from your TV

2.98-cm slimness

2.98-cm slimness

One HDMI in available

Enjoy larger-than-life 3D playback and crystal-clear 5.1 or 7.1 audio by simply plugging our player's audio one HDMI in output into the connection on your non-3D AV receiver.

Virtual Surround Sound

Philips Virtual Surround Sound produces rich and immersive surround sound from a less than five-speaker system. Highly advanced spatial algorithms faithfully replicate the sonic characteristics that occur in an ideal 5.1-channel environment. Any high quality stereo source is transformed into true-to-life, multi-channel surround sound. No need to purchase extra speakers, wires or speaker stands to appreciate room-filling sound.

Wireless subwoofer

Slim wireless subwoofer for vertical and horizontal placement

Powerful 320-W sound output

6 neodymium woofers and 2 premium soft dome tweeters, which produce crystal clear high tones, ensure premium quality sound. Their total output is 320 W, which is matched with a powerful 8" 220-W subwoofer. The HTL6140 is not just extremely thin; it sounds extremely good.
