A1PRO

Professional DJ Headphones

in collaboration with Armin van Buuren

Created in collaboration with 5-time world's best DJ award winner, Armin van Buuren, the A1PRO headphones are made for the electronic music life. On the move or by the mixing desk these headphones will add power and vibrance to every tune.

For DJs and audio professionals

- Source-accurate sound for as-recorded music enjoyment
- 40mm, 2500mW drivers ensure distortion-free music
- Excellent sound isolation for use in high noise environments
- Closed-back and isolating cushions for total sound isolation

Comfortable for long sessions

- Dual sided rotating arms for single ear monitoring
- Detachable, replaceable and comfortable ear cushions
- Soft, comfortable headband cushioning

Functional and durable

- Fold flat design for easy storing and carrying
- Coiled cable stretches to 1.8m for more freedom of movement
- TR90 nylon constructed headband for exceptional durability

Ideal DJ accessories

- Replaceable cushions

PHILIPS

Professional DJ headphones
40mm drivers/closed-back On-ear, Soft ear cushions, Flat folding

A1PRO/27

Highlights

40mm drivers handling 2500mW

High powered 40mm neodymium drivers, engineered for 2500mW of power deliver clear, dynamic and distortion-free music even at high volumes or with high audio input power.

Closed-back design

A closed-back architecture maximises bass and helps you listen to your music as loud as you want without leaking, while supra-aural cushions seal the gap between your ears and the headphones for superior sound isolation.

Coiled cable expands to 1.8m

Enjoy greater freedom of movement with a 1.4m long cable with a coiled section that can extend to 1.8m. The coil also reduces the strain on parts

caused by pulling, while providing extra extension without the tangled mess of cables.

Excellent sound isolation

Soft sealing cushions isolate your ears from the outside world, so you can focus on the beat without distraction.

Flat fold design

Designed to give you the best experience on the go, your Philips professional DJ headphones can be folded away for perfect portability and easy storage. Smart design and careful selection of components, like well-built hinges, allow the headphone parts to be maneuvered with ease.

Replaceable cushions

Bayonet mount ear cushions easily twist and click into place with the same secure mechanism of a camera lens. The soft ear cushions provide long-wearing comfort.

Source-accurate sound

Source-accurate sound reproduction brings you sound as it was recorded in the booth, without distortion or alteration, so the sound you hear is true to the original.

TR90 nylon made headband

TR90 nylon constructed headband for exceptional durability

Specifications

Sound

- Acoustic system: closed
- Frequency response: 13 - 23,000 Hz
- Magnet type: Neodymium
- Maximum power input: 2500 mW
- Diaphragm: PET
- Distortion: < 0.5%
- Impedance: 16 ohm
- Sensitivity: 108 dB
- Speaker diameter: 40 mm
- Type: Dynamic

Connectivity

- Cable Connection: one-sided
