## INTRODUCTION

### Your portable DVD player

Your portable DVD player plays digital video discs conforming to the universal DVD Video standard. With it, you will be able to enjoy full-length movies with true cinema picture quality, and stereo or multichannel sound (depending on the disc and on your playback set-up).

The unique features of DVD-Video, such as selection of soundtrack and subtitle languages, and of different camera angles (again depending on the disc), are all included.

What's more, parental lock lets you decide which discs your children will be able to see. You will find your player remarkably easy to use with the On-Screen Display and player display in combination with the remote control.

### Unpacking

First check and identify the contents of your package, as listed below:

- Portable DVD player
- Remote Control
- Car adaptor (12V)
- Audio / Video cable
- User Manual
- Warranty
- AC power adaptor, DSA-9W-09 F (DVE) or AY4132(PHILIPS)

### Placement

- Place the player on a firm, flat surface.
- Keep away from domestic heating equipment and direct sunlight.
- If the player cannot read CDs/DVDs correctly, try using a commonly available cleaning CD/DVD to clean the lens before taking the player to be repaired. Other cleaning methods may destroy the lens.
- Always keep the disc door closed to avoid dust on the lens.
- The lens may cloud over when the player is suddenly moved from cold to warm surroundings. It is then not possible to play a CD/DVD. Leave the player in a warm environment until the moisture evaporates.

## GENERAL INFORMATION

### Power Sources

- This unit operates on a supplied AC adaptor and car adaptor.
- Make sure that the input voltage of the AC adaptor is in line with the local voltage. Otherwise, the AC adaptor and unit may be damaged.
- Do not touch the AC adaptor with wet hands to prevent electric shock.
- When connecting with car power (cigarette lighter) adaptor, be sure the input voltage of the adaptor is identical with car voltage.
- Unplug the AC adaptor from the outlet when the unit is not used for long periods of time.
- Hold the plug to disconnect the AC adaptor. Do not pull the power cord.

### Safety and maintenance

- Do not disassemble the unit for laser rays are dangerous to eyes. Any service should be done by qualified service personnel.
- Unplug the AC adaptor to cut the power if liquid or objects get inside the unit.
- Take care not to drop the unit or subject it to strong shocks, which may cause malfunction.
- Important (for models with by-packed headphones): Philips guarantees compliance with the maximum sound power of its audio players as determined by relevant regulatory bodies only with the original model of provided headphones. In case this one needs replacement, we recommend that you contact your retailer to order a model identical to that of the original provided by Philips.
- Traffic safety: do not use while driving or cycling as you may cause an accident.
- Do not expose to excessive heat caused by heating equipment or direct sunlight.
- This product is not waterproof: do not allow your player to be submerged in water. Water entering the player may cause major damage.
- Do not use any cleaning agents containing alcohol, ammonia, benzene, or abrasives as these may harm the player.
- Apparatus shall not be exposed to dripping or splashing. Do not place any sources of danger on the apparatus (e.g. liquid filled objects, lighted candles).
- Do not touch the lens!

Note: When the player is in use for a long period of time, the surface will be heated. This is normal.

## PREPARATIONS

### Power supply

#### Using the AC / DC adaptor

Turn off the player before connecting the supplied adaptor to it and the main power supply (as shown). The player must be turned off when the battery charges.

- ✓ **TIP**
- To avoid damage to the player, switch off before plugging or unplugging the AC adaptor.

#### Using the car adaptor

Connect the supplied car adaptor to the set and the car cigarette lighter outlet.

- ✓ **TIP**
- To avoid damage to the player, switch off before plugging or unplugging the car adaptor.
- When connecting with car power (cigarette lighter) adaptor, be sure the input voltage of the adaptor is identical with car voltage.
- Make sure the temperature is below 35°C when the DVD player is connected to DC 16.0V in a car.

#### Powering your remote control

- 1 Open the battery compartment. Remove the protective plastic tab (first time users only).
- 2 Insert 1 x lithium 3V battery, type CR2025, then close the compartment.

### CAUTION

- Batteries contain chemical substances, so they should be disposed of properly.
- Danger of explosion if battery is incorrectly replaced. Replace only with the same or equivalent type.
- Incorrect use of batteries can cause electrolyte leakage and will corrode the compartment or cause the batteries to burst.

## FUNCTIONAL OVERVIEW

### Remote controls ( see figure 2 )

- ① **SETUP** ..... Enter or exit the system menu.
- ② **DISPLAY** ..... Display information on TFT during playback.
- ③ **ZOOM** ..... Enlarge or reduce a picture or active image on the TFT.
- ④ **SUB** ..... Select a subtitle language.
- ⑤ **◀◀** ..... Skip to the previous chapter, track or title.
- ⑥ **▶▶** ..... Skip to the next chapter, track or title.

- ⑬ **AUDIO** ..... Select an audio language when playing a DVD disc or select an audio mode (Stereo, Mono-Left or Mono-Right) when playing a VCD/CD disc.
- ⑭ **ANGLE** ..... Select DVD camera angle.

### CAUTION

Use of controls or adjustments or performance of procedures other than herein may result in hazardous radiation exposure or other unsafe operation.

## INTRODUCTION

### About Built-in Rechargeable Battery

#### Precautions related to battery recharge

- 1 Once the battery is fully discharged, immediately recharge it (regardless of whether you plan to use the battery or not) in order to maximize the battery life. When the power is low, the battery icon will be shown on the upper-left corner of the TFT for warning.
- 2 To charge the battery, please directly connect this DVD player to AC mains and the charge indicator will turn on.

#### Using and maintaining your rechargeable batteries

- 1 Please make sure you always use only the AC adaptor included with the player to recharge your batteries.
- 2 Recharge efficiency will degrade when the environmental temperature drops below 50°F (10°C) or exceed 95°F (35°C).
- 3 The lasting time of the fully charged battery when a headphone is connected to the DVD player is approximately 2 hours.

#### Playable disc formats

In addition to DVD-Video disc, you will also be able to play all Video CDs and audio CDs (including CD+R, CD+RW, DVD±R and DVD±RW).

#### DVD-Video

Depending on the material on the disc (a movie, video clips, a drama series, etc.) these discs may have one or more Titles, and each Title may have one or more Chapters. To make access easy and convenient, your player lets you move between Titles, and also between Chapters.

#### CD with JPEG files

You can also view JPEG still photos on this player.

## GENERAL INFORMATION

### Hearing Safety

#### Listen at a moderate volume:

- Using headphones at a high volume can impair your hearing. This product can produce sounds in decibel ranges that may cause hearing loss for a normal person, even for exposure less than a minute. The higher decibel ranges are offered for those that may have already experienced some hearing loss.
- Sound can be deceiving. Over time your hearing "comfort level" adapts to higher volumes of sound. So after prolonged listening, what sounds "normal" can actually be loud and harmful to your hearing. To guard against this, set your volume to a safe level before your hearing adapts and leave it there.

#### To establish a safe volume level:

- Set your volume control at a low setting.
- Slowly increase the sound until you can hear it comfortably and clearly, without distortion.

#### Listen for reasonable periods of time:

- Prolonged exposure to sound, even at normally "safe" levels, can also cause hearing loss.
- Be sure to use your equipment responsibly and take appropriate breaks.

#### Be sure to observe the following guidelines when using your headphones:

- Listen at reasonable volumes for reasonable periods of time.
- Be careful not to adjust the volume as your hearing adapts.
- Do not turn up the volume so high that you can't hear what's around you.
- You should use caution or temporarily discontinue use in potentially hazardous situations.
- Do not use headphones while operating a motorized vehicle, cycling, skateboarding, etc.; it may create a traffic hazard and is illegal in many areas.

## PREPARATIONS

Remove the battery if the remote control is not to be used for a long time.

### Connections

#### Connecting headphones

Connect the headphones into the 📶 jack of your set.

#### Connecting additional equipment

- Turn off your set before connecting to any additional equipment.
- You can connect the player to a TV or an amplifier to enjoy DVDs or karaoke.

#### AV OUT

Connect the desired device to this terminal directly (no setting needed in the DVD mode).

## NOTE

## INTRODUCTION

### Video CD

Depending on the material on the disc (a movie, video clips, a drama series, etc.) these discs may have one or more Tracks, and tracks may have one or more indexes, as indicated on the disc case. To make access easy and convenient, your player lets you move between tracks and between indexes.

### Audio CD / MP3 CD

Audio CDs / MP3-CD contain music tracks only. You can play them in the conventional way through a stereo system using the keys on the remote control and/or main unit, or via the TV using the On Screen Display (OSD).

### Handling discs

- Do not attach paper or tape to the disc.
- Keep the disc away from direct sunlight or heat sources.
- Store the disc in a disc case after playback.
- To clean, wipe the disc outwards from the center with a soft, lint-free clean cloth.

### On handling the LCD screen

The LCD is manufactured using high precision technology. You may, however, see tiny black points and/or bright points (red, blue, green) that continuously appear on the LCD. This is a normal result of the manufacturing process and does not indicate a malfunction.

### Environmental information

We have reduced the packaging to its minimum and made it easy to separate into mono materials: cardboard, PS, PE and PET. Your set consists of material which can be recycled if disassembled by a specialized company. Please observe the local regulations to dispose of packaging, exhausted batteries and old equipment.

### Copyright information

All other brand and product names are trademarks of their respective companies or organizations. Unauthorized duplication of any recordings downloaded from the internet or made from CDs / VCDs / DVDs is a violation of copyright laws and international treaties.

## GENERAL EXPLANATION

### About this manual

This manual gives the basic instructions for operating this DVD player. Some DVD discs however are produced in a way that requires specific operation or allows only limited operation during playback. In these cases the player may not respond to all operating commands. When this occurs, please refer to the instructions in the disc inlay. When a "Ⓞ" appears on the screen, the operation is not permitted by the player or the disc.

### Remote control operation

- Unless otherwise stated, all operations can be carried out with the remote control. Always point the remote control directly at the player, making sure there are no obstructions in the path of the infrared beam.
- When there are corresponding keys on the main unit, they can also be used.

### Menu navigation

- Your player has an intuitive menu navigation system to guide you through various settings and operations.
- Use the function keys to activate / disable relevant operations.
- Use ▲, ▼, ◀, ▶ to browse through menus.
- Press ENTER key to confirm your selection.

## TROUBLESHOOTING

If it appears that the DVD-Video player is faulty, first consult this checklist. It may be that something has been overlooked.

**WARNING**  
Under no circumstances should you try to repair the set yourself as this will invalidate the guarantee. If a fault occurs, first check the points listed, before taking the set for repair. If you are unable to solve a problem by following these hints, consult your dealer or service centre.

Symptom	Remedy
<b>No power</b>	- Check if both plugs of the mains cord are properly connected. - Check if there is power at the AC outlet by plugging in another appliance. - Check if the built-in battery is drained. - Check if car adaptor is connected appropriately.
<b>Distorted picture</b>	- Check the disc for fingerprints and clean with a soft cloth, wiping from centre to edge. - Sometimes a small amount of picture distortion may appear. This is not a malfunction.
<b>Completely distorted picture / no colour in the TV screen</b>	- The PAL setting may be in the wrong status. Match your TV's setting with the player's setting.
<b>No sound</b>	- Check audio connections. If using a HiFi amplifier, try another sound source.

## TROUBLESHOOTING

Symptom	Remedy
<b>Disc can't be played</b>	- Ensure the disc label is upwards. - Clean the disc. - Check if the disc is defective by trying another disc.
<b>The player does not respond to the remote control</b>	- Aim the remote control directly at the sensor on the front of the player. Avoid all obstacles that may interfere with the signal path. Inspect or replace the batteries.
<b>Distorted or B/W picture with DVD</b>	- Use only discs formatted according to the TV-set used (PAL).
<b>Player does not respond to all operating commands during playback</b>	- Operations are not permitted by the disc. - Refer to the instructions in the disc inlay.
<b>Player feels warm</b>	- When the player is in use for a long period of time, the surface will be heated. This is normal.
<b>Display goes dimmer when AC is unplugged</b>	- The unit is saving power to ensure longer playtime with battery. It is normal. Adjust the brightness using the rotary brightness control.

**This set complies with the radio interference requirements of the European Union.**
