*Switch between play and library screen

Playback

Library

To switch between now playing and library screens: Press **VIEW**

3

Install

Insert the included CD into your computer's CDROM drive. Select your language and follow screen instructions to complete installation of Windows Media Player 10 (Windows XP) and Philips Device Manager.

System requirements:

- Windows® XP(SP1 or above)
- 64 MB RAM
- 100 MB hard drive space
- Internet connection
- USB port

4

Connect

Connect the by-packed adapter to your device and to the main power supply. Connect the smaller end of your USB cable to your device, the bigger end to your computer's USB port. Your device will be recognized as a portable device on your computer. It is now ready to download music tracks.

Ensure your device is connected before opening WMP for best performance.

5

Transfer

Transfer music files from your PC to your device via Windows Media Player.

Please read "Getting started with Windows Media Player" for detailed information.

How do I reset my device?

If your device hangs up, do not panic. Simply reset your device. Press and hold ►|| and [VOLUME +] for 3 seconds. Then press ►|| to power on again. Your data or your music will not be affected or damaged!

How do I repair my device?

With Philips **Device Manager** you can update and repair the software in your device with a few simple clicks. Install Philips Device Manager from the CD ROM.

- ① Connect your device to your computer.
- ② Launch Device Manager User Interface by right-clicking on this  icon in the taskbar and selecting "Launch Device Manager" or by going to **Start → Programs → Philips Device Manager**
- ③ In the main window, go to the repair tab and click Repair.
- ④ You will be prompted before repair begins.

ATTENTION!

All media contents will be erased!

- ⑤ Click OK to continue. Click Cancel to stop.
- ⑥ The Device Manager will repair your device. Once the repair is complete, the device can be disconnected from the PC and is ready to be used again.

Note: Your device is equipped with data logging function which help us enhance your user experience. Please refer to the user manual for details.

Disposal of your old product

Your product is designed and manufactured with high quality materials and components, which can be recycled and reused.

When this crossed-out wheeled bin symbol is attached to a product it means the product is covered by the European Directive 2002/96/EC

Please inform yourself about the local separate collection system for electrical and electronic products.

Please act according to your local rules and do not dispose of your old products with your normal household waste. The correct disposal of your old product will help prevent potential negative consequences for the environment and human health.
