Audio in

Audio-in allows you to easily play your music directly from your iPod/iPhone/iPad, MP3 player or laptop via a simple connection to your home cinema. Simply connect your audio device to the Audio-in jack to enjoy your music

with the superior sound quality of the Philips home cinema system.

EasyLink

EasyLink lets you control multiple devices like DVD players, Blu-ray players, soundbar speakers, Home theatre systems and TVs etc. with one remote. It uses HDMI CEC industry-standard protocol to share functionality between devices through the HDMI cable. With one touch of a button, you can operate all your connected HDMI CEC-enabled equipment simultaneously. Functions like standby and play can now be carried out with absolute ease.

HDMI for HD movies

HDMI is a direct digital connection that can carry digital HD video as well as digital multichannel audio.
