Technology Maximizer

IGT Mobile Surgery

Keep your IGT Mobile Surgery system up-to-date and clinically advanced with enhanced security

Ensuring that your mobile imaging systems remain up-to-date, compliant and protected can be challenging. Safe, secure and timely upgrades are vital to maintaining and maximizing the performance and operational value of your systems. Technology Maximizer is a cost effective and easy-to-use upgrade service, available across selected IGT, Ultrasound, MR, DXR and CT equipment.

At an organizational level, Technology Maximizer benefits include:

Stay clinically advanced

Get system upgrades and innovations as soon as they're released and enhance workflows while keeping systems up-to-date.

Enhance cybersecurity

Get essential cybersecurity updates and avoid weak links and vulnerabilities created by out-of-date or obsolete software.

Improve staff experience

Empower employees with the latest technology and help drive better outcomes.

Predict and deliver cost savings

Keep your costs predictable, avoid repeated capital investments and multiple approvals and save on upgrade fees over your system's lifecycle.

How Technology Maximizer for IGT Mobile Surgery works

Technology Maximizer provides upgrades to core system functionality, accessories, cybersecurity controls, operating system, clinical innovations and system hardware.

Depending on the plan selected, Technology Maximizer for IGT Mobile surgery can provide upgrades and trainings such as:

- Latest Windows updates and future OS upgrades
- PC Hardware upgrade
- Clinical software such as Cardiovascular extension
- Touch screen module
- Clinical training

Maximize your imaging investments

Designed to boost the clinical capability and operational performance of your imaging equipment, Technology Maximizer will keep your imaging system up-to-date with a full system upgrade.

Structured upgrades delivered upon release include¹:
