Highlights

1800 Joules
Prevent thousands of dollars of damage to your electronic devices.

Protected coax connections
Connectors route the coaxial signal through the surge protector to protect against surges and spikes.

Power Blocker
Automatically shuts down power to the connected devices.

€150.000 equipment warranty
Protects your connected equipment for the life of the product.

4 outlets with protection
Protects against surges/spikes through the AC lines by supressing surge energy. The excess energy is clamped by the MOV when the unit is subjected to a surge event.

2 m power cord
Provides power to the unit which can be 2 m from the AC outlet.

Cord Management
A cord management device that allows the cable/cords to be routed in the same direction for a more organized appearance

automatic child safety outlets
Helps keep children safe from accidental shock.

Protection indicators
LED lights let you know if your surge protector is functioning properly.
