PHILIPS

Highlights

20 hours of continuous play

Powered by batteries, this speaker offers up to 20 hours of continuous play for worry-free enjoyment when you're listening to your music on the go.

Battery powered

Powered by batteries, it's easy to take with you for enjoyment on the go - anywhere and everywhere.

Built-in folding stand

When enjoying your music out loud and on the go, you can easily prop up the speaker to direct the sound with the speaker's convenient, built-in folding stand.

Carrying pouch

Look after your speaker and stop the cable getting tangled by storing it in this handy soft pouch when not in use.

Class 'D' Amplifier

Class 'D' Digital Amplifier takes an analog signal, converts it into a digital signal and then amplifies the signal digitally. The signal then enters a demodulation filter to give the final output. The amplified digital output delivers all the advantages of digital audio, including improved sound quality. In addition, Class 'D' Digital Amplifier has greater than 90% efficiency compared to traditional AB amplifiers. This high

efficiency translates into a powerful amplifier with a small footprint.

Lightweight, portable design

The durable, lightweight material and design mean you can carry the speakers with you wherever you go.

Line-in doubles as lanyard

These speakers are ready to go! When it's time to take your music on the go, reconnect the line-in cable and secure it in place to use as a convenient lanyard.

Mobile phone shielding

Mobile phone shielding technology is an advanced circuitry design that cuts out mobile phone interference to ensure static free sound

Polished metal body and grill

Finally, a travel speaker that looks as good as it sounds. With a polished aluminum body and rugged metal grill, this speaker is built for both travel and style.

Universal 3.5mm headphone jack

Plug and play with any of your mobile devices that have a 3.5mm headphone jack – iPod, iPhone, GoGear, MP3 players, laptops, netbooks, music phones and more.
