# Highlights

## Clear, simple display

Tell the time at a glance with this FM alarm clock radio. The large digits mean the display is easy to see from any angle, and you can adjust the brightness to suit your room. Simple controls take care of setting the alarm, volume and tuning.

## Dual alarms

The dual alarm function lets you set two alarms, both of which can be set to use either an alarm tone or the radio. Perfect if you're likely to snooze through the first alarm. Or if your partner needs to wake before you.

## Sleep Timer

Drift into restful sleep with your favourite radio station playing in the background. You can set the Sleep Timer to play your selected station for up to two hours. After your preset time has elapsed, the radio turns off automatically.

## Gentle Wake

Ease into your day thanks to the Gentle Wake function. Whichever alarm style you have chosen—alarm tone or radio—the volume starts low and gradually increases. No more waking with a shock!
