Product highlights

Built-in talking stopwatch

Activate the built-in talking stopwatch feature via the strategically positioned button on the top left of the player. The stopwatch relays the elapsed running time via your headphones. You don't even need to look at your player. To keep you motivated in any mode, the talking stopwatch can be used either with or without music playback.

'No-look' rocking lens

Enjoy a hassle free workout and take accurate control of your music on the move via your player's intuitive 'no-look' rocking lens. Designed to keep you moving and motivated, the rocking lens provides discreet and easy access to multiple functions on the player without disrupting your workouts. For a true 'no look' experience, simply tap on the guiding points of the rocking lens marked with a small bump for convenient and accurate music control.

ShockLock

Enjoy 100% shock-free music on the go and even during the most vigorous workouts. No need to worry about damaging the hard disc of your HDD player. Once you've selected your favourite songs to motivate your workout, simply press the 'Hold' button on your HDD player and select the ShockLock mode. Your music selection will be automatically loaded into the HDD player's buffer memory. From this moment on, the hard disc will be locked in ShockLock mode to protect it from shock and vibration. Enjoy your workouts free from shock.
