MCD139B

Enjoy great movie experience

Enjoy your favorite movies with The Philips MCD139B. Featuring Progressive Scan for optimized image quality and Dynamic Bass Boost for powerful sound output, you can now enjoy cinematic experience right at your home!

Enjoy your favorite movies, photos and music

- Progressive Scan component video for optimized image quality
- Dolby Digital for ultimate movie experience
- Play DVD, DivX®, (S)VCD, MP3-CD, WMA-CD, CD(RW) & Picture CD

Enrich your sound experience

- Digital Sound Control for optimized music style settings
- Dynamic Bass Boost for deep and dramatic sound
- Total 100W RMS

Start the day your way

- Wake up and sleep timer functions
- Digital tuning with 40 preset stations for extra convenience

PHILIPS

Highlights

Progressive Scan

Progressive Scan doubles the vertical resolution of the image resulting in a noticeably sharper picture. Instead of sending a field comprising the odd lines to the screen first, followed by the field with the even lines, both fields are written at one time. A full image is created instantaneously, using the maximum resolution. At such a speed, your eye perceives a sharper picture with no line structure.

Digital Sound Control

Digital Sound Control offers you a choice of pre-set Jazz, Rock, Pop and Classic controls you can use to optimise the frequency ranges for different musical styles. Each mode uses graphic equalizing technology to automatically adjust the sound balance and enhance the most important sound frequencies in your chosen music style. Ultimately, Digital Sound Control makes it easy for you get the most out of your music by precisely adjusting the sound balance to match the type of music you are playing.

Dynamic Bass Boost

Dynamic Bass Boost maximizes your music enjoyment by emphasizing the bass content of the music throughout the range of volume settings - from low to high - at the touch of a button! Bottom-end bass frequencies usually get lost when the volume is set at a low level. To counteract this, Dynamic Bass Boost can be switched on to boost bass levels, so you can enjoy consistent sound even when you turn down the volume.

Specifications

Sound

- Output Power: 1800W PMPO
- Sound Enhancement: Digital Sound Control 4 modes, Dynamic Bass Boost
- Sound System: Dolby Digital
- Output power (RMS): 2x25W + 50W RMS
