Pronto

TSU9300

Designed by installers, made by Philips

Ultra-thin with a stunning 7.1 cm/2.8" QVGA color touch screen the Pronto TSU9300 is a hybrid of full functionality! It can blend into practically any modern interior with its designer looks and geometric aluminum and black gloss finishing.

A touch of elegance

- High resolution 2.8" color touchscreen with superb contrast
- Ergonomic design for single-handed operation
- Cutting-edge design with flush-mounted display

Personalized convenience

- User interface matching your personal taste and preferences
- Control multiple devices with a single touch
- Control hidden equipment and devices in other rooms

Music, mood and ambiance

- Music server control with intuitive rotary cursor
- Pre-configured lighting control (Lutron RadioRa)
- Access digital files from any Windows MCE PC

PHILIPS
sense and simplicity

Specifications

Picture/Display

- Diagonal screen size (inch): 2.8 inch
- Display colors: 65,536
- Resolution: 320 x 240 pixels
- Display screen type: LCD TFT
- Touch panel

Connectivity

- Connector: Mini USB
- Power: 100-240V, 50/60Hz
- Built-in wireless technology: 802.11g
- Encryption / security: WEP 128 bit, WEP 64 bit
- Network mode: DHCP, Fixed IP
- USB: USB 2.0

Convenience

- Automatic power off
- Multi language: English, Spanish, French, German, Dutch
- Clock with calendar
- Cradle/ docking station
- Cursor key
- Pick up sensor
- Rotary wheel

Accessories

- AC/DC Adaptor
- CD-ROM
- Docking Station
- Printed User Guide
- USB cable

System Requirements

- Hard disk space: 250 MB free
- PC OS: Windows XP, Vista
- CD-ROM drive
- RAM memory: 256 MB free
- USB: Free USB port

Power

- Battery capacity: 1700 mAh
- Charging time: Up to 3.5 hr
- Battery Type: LI-Polymer
- On/Off switch

Customization

- Full screen configurability
- Alpha-blending
- Macros: Up to 250 steps
- Database: Configurable personal database, Model number based database

System Specifications

- CPU: Freescale 32 bit RISC
- CPU speed: 266 MHz
- Ram size: 64 MB

Infrared Capabilities

- Operating distance: 36 ft (12 m)
- Learning IR codes
- Transmitting LEDs: 5
- Universal IR code database
- Number of brands in database: Over 3000

RF Capabilities

- Frequency (GHz): 2.4
- WiFi based

Outer Carton

- EAN: 69 23410 70183 8
- Gross weight: 1 kg
- Outer carton (L x W x H): 35.5 x 21.6 x 10 cm
- Nett weight: 0.604 kg
- Number of consumer packagings: 1
- Tare weight: 0.396 kg

Packaging dimensions

- Packaging dimensions (W x H x D): 21.6 x 35.5 x 10 cm
- EAN: 69 23410 70183 8
- Gross weight: 1 kg
- Nett weight: 0.604 kg
- Number of products included: 1
- Packaging type: Carton
- Tare weight: 0.396 kg
- Type of shelf placement: Laying

Product dimensions

- Product dimensions (W x H x D): 10 x 15.7 x 3.4 cm
- Weight: 0.295 kg

Highlights

Customizable UI

User interface can be created to fully incorporate the end user's personal taste and preferences. So, only the devices and buttons that are used most, will be visible on the touchscreen. Also, the graphical design (backgrounds, icons, buttons, colors used) can be chosen by the user.

Flush-mounted display

Flush-mounted display means that the screen is not recessed anymore, but instead flows smoothly with the casing.

Music server control

Out-of-the-box, a user can control his music server e.g. Escient Fireball. The user interface of the music server is built into the remote control. It facilitates listening to music without being in view of a TV, which is normally required to display a music server's user interface. This, in combination with an ergonomic thumb wheel on the remote, simplifies selecting tracks and playlists, & also frees up the TV screen for other activities.

Lighting control

Pre-configured lighting control includes a full on-screen user interface for controlling lighting scenes, moods and individual dimmers. With on-screen feedback from lighting throughout the house, the end user knows if the light is actually on or off.

MCE PC functionality

Through 3rd party software, the Pronto control panel can incorporate Windows MCE PC functionality. This means you are able to access any digital files from your MCE PC via the control panel.

One-touch convenience

One-touch control allows you to perform multiple commands with one press of a button via a macro. A macro combines a string of pre-programmed commands under one single button. Therefore, it simply takes one button press to execute a series of functions.

Extended control

A range of extenders is available, both wired and wireless versions, that extend the range of transmission of the remote control. This enables the user to control equipment hidden in cabinets or in other rooms with one and the same control unit.
