Bringing people closer

Talk handsfree

Our clever design gives you great sound reproduction without having to hold the phone to your ear – so you can talk completely handsfree. With simple installation and a user-friendly menu, a great chat has never been easier.

Crystal clear sound

- Handset speakerphone allows you to talk handsfree
- Parametric Equalizer delivers pure and clear sound
- Acoustic echo cancellation keeps your conversation echo-free
- Optimized antenna layout for great reception in any room
- Advanced sound testing & tuning for superb voice quality

Nice and simple

- Ultimate convenience through easy setup
- Easy to read, 4.1cm (1.6") dot-matrix display
- Save up to 100 favorite contacts in your phonebook
- Up to 17 hours of talk time

Eco-conscious product

- Up to 95% reduction of emitted radiation in charging mode
- Low power consumption: < 0,6W in stand-by mode

PHILIPS

Highlights

Easy setup

Ultimate convenience through easy set up.
Simplified installation - Plug & Play product

Handset speakerphone

Handsfree mode uses a built-in loud speaker to amplify the voice of the caller, allowing you to speak and listen during a call without holding the phone to your ear. This is especially useful if you want to share the call with others or simply multitask.

Advanced sound testing

We test the sound quality of our DECT phones the same way as high-end headphone manufacturers do. Using an advanced ear simulator, we can accurately re-create the way people actually hear. This helps our acoustic engineers to measure and fine-tune things like frequency response, distortion and overall hearing perception, to create perfect voice reproduction for both handset and handsfree modes.

Acoustic echo cancellation

No more of those annoying echoes when you are talking on the phone. With our acoustic echo cancellation, you always get a clear, undisturbed connection.

Parametric Equalizer

Our telephones use parametric equalization in the digital sound processing to fine-tune the sound response back to the intended linear frequency response curve, delivering sound that is pure and clear, for each conversation.

4.1cm(1.6") dot-matrix display

Easy to read, 4.1cm (1.6") dot-matrix display

100-name phone book

Always have the phone numbers of your loved ones available: Save up to 100 names in your phonebook.

Optimized antenna layout

Our optimized antenna layout ensures strong and stable reception – even in areas of the house where cordless transmission is difficult. Now you can take a call wherever you are in the house, and enjoy a long, uninterrupted conversation even as you walk around.

Less radiation while charging

Up to 95% reduction of emitted radiation in charging mode

Low power consumption: < 0.6 W

Philips phones are energy efficient and are designed to be respectful to the environment. Now the power consumed in stand-by mode is less than < 0.6 W.

Specifications

Sound

- Volume control on handset
- Ringtones on handset: 10 polyphonic
- Speakerphone

Picture/Display

- Display size: 4.1cm / 1.6"
- Display type: 1-line dot matrix + 2 line icons
- Backlight: Yes

- Phonebook: 100 names and numbers
- Redial List Capacity: 10 entries
- Call log entries: 20 entries
- Phonebook store in the base

Power

- Battery Capacity: 650 mAh
- Battery type: AAA NiMH Rechargeable
- Mains power: AC 100-240V ~50/60Hz

Security

- Transmission encryption : Yes

Network Features

- Compatible: GAP

SAR Value

- Philips handsets: <0.1 W/kg

Eco Design

- EcoMode: automatic

Packaging dimensions

- Packaging dimensions (W x H x D):
18.5 x 13.6 x 10.4 cm
- EAN: 87 12581 64327 0
- Gross weight: 0.708 kg
- Nett weight: 0.575 kg
- Number of products included: 1
- Packaging type: Carton
- Tare weight: 0.133 kg
- Type of shelf placement: Laying

Issue date 2019-05-31

Version: 3.0.6

12 NC: 8670 000 89685
