- 8W RMS total output power

Multisource music enjoyment

- USB Direct for MP3/WMA music playback
- Digital tuning for station presets
- Play MP3/WMA-CD, CD and CD-RW

PHILIPS

Highlights

Rip-plus

With this smart feature, you can rip your desired music content from CDs, cassette tapes (if applicable), radio programs or any device with a line-in connection via the hi-fi system directly to your USB device and SD card (if applicable) into MP3 format- without using a PC.

USB Direct

With the USB Direct mode, simply plug in your USB device to the USB port on your Philips

device and your digital music will be played directly from the Philips device.

MAX Sound

MAX Sound technology produces an instant boost in bass, maximizing volume performance and instantly creating the most impressive listening experience with just the touch of a button. Its sophisticated electronic circuitry calibrates existing sound and volume settings, instantly boosting bass and volume to maximum levels without distortion. The end result is a noticeable amplifying of both sound

spectrum and volume and a potent audio boost that will add mileage to any music.

MP3 Link

The MP3 link connectivity allows direct playback of MP3 content from portable media players. Besides the benefit of enjoying your favorite music in the superior sound quality delivered by the audio system, the MP3 link is also extremely convenient as all you have to do is to plug your portable MP3 player to the audio system.
