- Battery lifetime: Up to 2hrs*

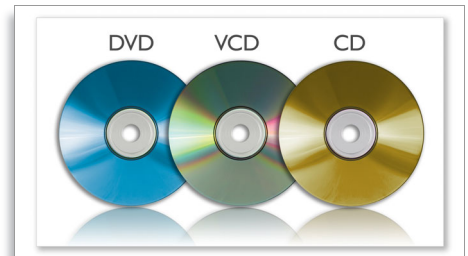

Highlights

Dual TFT LCD screens

Dual screens allow you to display same videos or images from the portable DVD players. Simply plug in and mount the screens on the headrests in your car. Now you can enjoy your favorite DVD movies and JPEG photos with family and friends at the backseats easily and comfortably.

DVD, DVD+/-RW, (S)VCD, CD

The Philips Portable DVD player is compatible with most DVD and CD discs available in the market. DVD, DVD+/-R, DVD+/-RW, (S)VCD, and CD – all of them can play on the DVD player. DVD+/-R is a shorthand term for a DVD drive that can accept both of the common recordable DVD formats. Likewise, DVD+/-RW handles both common rewritable disc types.

22.9cm/9" TFT color widescreen

The high resolution color LCD display brings images to life, showing off your treasured photos, favorite movies and music with the same 'real life' rich detail and vibrant colors as high quality prints.

Watch movies separately

The in-car dual player design lets you watch movies individually on each portable DVD player. Alternatively, you can connect them together and, with the single touch of the signal switch button, passengers in both the front and back seats can watch one movie playing simultaneously on both DVD players.
