- **Product dimensions (W x H x D):** 151 x 158 x 198 mm
- **Weight:** 1.8 kg

Power

- Mains power

Product highlights

CD playback and wake up track

Large LCD

The large LCD text display guides you through control options with ease, while display backlighting simplifies controlling your complete home entertainment environment in the dark.

Gentle Wake

Gentle Wake is a customisable volume control for your alarm that gently wakes you up at your preferred volume level instead of jolting you awake. Simply set 'start' and 'end' volume levels that you feel comfortable with and your CD, radio or buzzer alarm will gently bring you out of sleep, with an increasing volume.

Sleep timer

Sleep Timer lets you decide how long you want to listen to music or a radio station of your choice before falling asleep. Simply set a time limit (up to 1 hour) and choose a CD or radio station to listen to while you drift off to sleep. The set will continue to play for the selected duration and then automatically switch off to a power efficient, silent standby mode. Sleep Timer lets you fall asleep to your favourite CD or radio DJ without counting sheep or worrying about wasting power.

Repeat alarm

AM/FM tuner

Self powered back-up

Dual alarm
