Keep your CT system up-to-date, clinically advanced with enhanced security

Ensuring that your CT systems remain up-to-date, compliant and protected can be challenging. Safe, secure and timely upgrades are vital to maintaining and maximizing the performance and operational value of your systems. Technology Maximizer is a cost effective and easy-to-use upgrade service, available across selected CT, MR, Ultrasound, IGT and Diagnostic X-Ray equipment.

At an organizational level, Technology Maximizer benefits include:

Stay clinically advanced

Get system upgrades and innovations as soon as they're released and enhance workflows while keeping systems up-to-date.

Enhance cybersecurity

Get essential cybersecurity updates and avoid weak links and vulnerabilities created by out-of-date or obsolete software.

Improve staff experience

Empower employees with the latest technology and help drive better outcomes.

Predict and deliver cost savings

Keep your costs predictable, avoid repeated capital investments and multiple approvals and save on upgrade fees over your system's lifecycle.

How Technology Maximizer for CT works

Technology Maximizer provides ongoing future and existing upgrades to maintain your system at Forward Production performance, including one full hardware console upgrade (Host and Reconstruction Computer)
Depending on the plan selected, Technology Maximizer for Computed Tomography can provide upgrades and training such as:
• iPatient
• Precise suite software applications
• Workflow improvements such as Parallel and Advanced in-room workflow
• AI imaging integration, including AI-based workflow, AI-assisted image reconstruction, and more.

Maximize your Computed Tomography investment

Designed to boost the clinical capability and operational performance of your computed tomography equipment, Technology Maximizer will keep your imaging system up-to-date with a full system upgrade.
