WACS7000

Enjoy all your music in every room

Total music enjoyment and freedom

Store your whole life's music on the 80 GB hard disk and enjoy wireless streaming from the Centre to the Station. Experience high-speed CD ripping. Plus, you can playback your GoGear or iPod by using the optional 2-in-1 dock.

Unlimited listening pleasure - wirelessly

- Wireless streaming between Music Centre and Station(s)
- 80 GB hard disk to store and play back up to 1500 CDs
- USB Direct for MP3/WMA music playback
- Docking cradle for GoGear and iPod (optional)
- Wireless streaming from PC via UPnP

Easy navigation and control

- My Room, My Music: Listen to different music in each room
- Music Follows Me: take your music with you from room to room
- Music Broadcast for simultaneous playback to all Stations
- Rip CDs with Gracenote automatic song information search
- 2-Way LCD Remote Control with alphanumerical search

Quality sound performance

- Super Sound Panel for clear and deep bass sound
- Class 'D' digital amplifier for quality sound performance

PHILIPS
sense and simplicity

Highlights

Wireless streaming

With wireless streaming, you don't need to download and store large music files on our audio device. Instead, you can listen to favourite songs as they are continuously streamed to all the Music Stations - at the same time. Have your music follow you from room to room with Music Follows Me - no need to restart navigation and playback. Music Broadcast simultaneously broadcasts the music you want from the Centre to all Stations. And with My Room, My Music, any family member can enjoy selected music from the stored collection in any room that is equipped with a Wireless Music Centre or Station.

80 GB hard disk/1500 CDs

The 80 GB hard disk provides a very large capacity for you to store your digital audio files, easily holding up to 1500 audio CDs. Space saving, smart audio collection management, easy access and all in one place.

USB Direct-MP3/WMA

With the USB Direct mode, you can simply select the music on a USB device and play back all your content. All you have to do is plug in

your USB device to play back music or export content from the device.

Universal Plug & Play

Universal Plug & Play is an industry standard technology that lets you connect to any Universal Plug & Play-enabled device to receive or transmit music. Your Wireless Music Centre utilises Universal Plug & Play to ensure an easy and standard way to connect to other Universal Plug & Play-enabled devices. You can easily connect your Wireless Music Centre to other media devices to receive or to transfer content.

Super Sound Panel

Super Sound Panel is an innovative, flat speaker panel that uses cutting-edge technology to provide high-quality, full-range audio from a flat and compact speaker unit.
