Maximum functionality.
Minimum fuss.

Icon design allows you to customize programming by user or by viewing category. 10 Device remote controls TV, DVD, Tivo, VCR, satellite, cable, audio, DVR and more. Offers advanced DVD, DVR and satellite functionality.

Single control solution for most devices & brands
• One remote for your TV,VCR,SAT,DVD,Tuner,CD,AMP and Receiver
• Extensive infrared code database for most devices & brands

Smart intuitive use
• Easy-to-read 3.6 cm (1.4") color LCD display
• Activities to control multiple devices with one button press
• Rotary cursor control for fast menu navigation
• LCD screen with backlighting for convenience in the dark

Quick and easy set-up
• No manual needed for setup
• Convenient IR learning from another remote
• Easily add and label extra functionality

PHILIPS
sense and simplicity

Specifications

Convenience

- Supported devices: TV, VCR, DVD, SAT, CABLE, CD/MD, RECEIVER, AMP, Home Theater, DVR, AudioSet, Digital Media Receiver, DSS, DVD Recorder, DVDR-HDD combo, DVD-VCR combo, Game console, HTS, PC, Projector (IR), Satellite Radio, TAPE, TIVO, Tuner, TV-DVD combo, TV-VCR combo, TV-VCR-DVD combo, VCD, Laser Disk
- Number of activities: 8
- Programmable macros: Yes, 8
- Battery low indication
- Display Type: LCD
- Ease of Installation: Autosearch
- Number of keys: 45
- On-Screen Display languages: Dutch, English, French, German, Italian, Spanish
- Languages in manual: English, German, French, Spanish, Italian, Dutch, Russian
- Scrollwheel

Infrared Capabilities

- Operating distance: 33 ft (10 m)
- Learning IR codes
- Number of brands in database: Over 1100
- Carrier frequency range: 19kHz - 455 kHz
- Transmission angle: 90 degree

Power

- Number of batteries: 3
- Battery type: AA / LR6 Alkaline
- Battery saving manager: Auto switch on/off

Outer Carton

- GTIN: 1 06 09585 15248 6
- Number of consumer packagings: 2
- Gross weight: 0,905 kg
- Outer carton (L x W x H): 33 x 17,1 x 9,6 cm
- Nett weight: 0,298 kg
- Tare weight: 0,607 kg

Packaging dimensions

- UPC: 6 09585 15248 9
- Number of products included: 1
- Packaging type: Dummy
- Type of shelf placement: Dummy
- Packaging dimensions (W x H x D): 15,75 x 31,95 x 4,7 cm
- Gross weight: 0,377 kg
- Nett weight: 0,149 kg
- Tare weight: 0,228 kg

Highlights

3.6 cm (1.4") color display

A 3.6 cm (1.4") (96 x 67 pixel) color LCD display is foreseen to provide easy readibility of the content on the screen.

Activity based user interface

Instead of operating your components one by one, activity based control blends the most commonly used functions into activities such as "Watch a movie" or "Listen to CD". When a user selects 'watch a movie', rather than having the end user address each individual piece of equipment - such as DVD player, TV and multimedia receiver -, one button holds all necessary commands to be able to start watching a movie: switch on the TV, switch on the amplifier and select the right input, switch on the the DVD player and start playing.

Intuitive rotary cursor

A cursor incorporating a rotary wheel enables you to navigate through the setup menu and the device pages, in both clockwise and counter-clockwise directions.

Guided setup

Unlike other universal remote controls, where a 3-digit code needs to be input to identify a brand and device, this remote incorporates on-device step-by-step instructions to setup your equipment, regardless of brand.

Learning functionality

Learning functionality refers to the process through which a remote control captures and stores infrared signals from other remotes for later use. When device codes are not included in the on-board database, they can always be learned from the original remote, simply by pointing to it.

Universal IR code database

A universal IR code database refers to a library of infrared codes built-in to a particular remote. This feature allows a remote to control your equipment without needing to learn individual signals. Select the correct infrared code sets in the database for the devices you want to control, to enable control of virtually every audio/video system element on the market today – regardless of model or brand.

Add extra functionality

Improved way of adding and labeling functions makes it easier and faster to add extra functionality. So, no more missing functions.

Backlight on screen

Backlighting is a feature that illuminates the LCD screen or keypad for use in the dark. The two most common types of backlighting include LED and electroluminescent (EL). Remotes backlit with LEDs are typically bright but uneven with a yellow or green color, while EL panels are smooth with blue, white or green shades.
