Highlights

Crystal-clear screen protector

The crystal-clear film adds an invisible layer of protection against scratches and dust to your device's display screen. It works using static adhesion, so it's easy to apply and remove without leaving any sticky residue.

Smoothing card included

Use the included smoothing card to gently remove any air bubbles that may have become trapped under the protective film during application.

Lint-free cloth included

Don't trap dust beneath your new screen protector! Use the included lint-free cloth to thoroughly clean the surface of your device before applying the film.

Clear viewing from any angle

The difference is clear – our screen protector won't distort the revolutionary IPS display so you can enjoy crisp, clear, vivid images at any angle.
