Extra touches for your convenience

- Enjoy up to 3 hours playback with a built-in battery*
- Car adaptor included
- Car mount pouch included for easy in-car use
- Full Resume on Power Loss

PHILIPS

Highlights

View JPEG from picture disc

Play JPEG photos that are saved on your disc. Relive your favorite moments with family and friends anytime you want!

DVD, DVD+/-RW, (S)VCD, CD

The Philips Portable DVD player is compatible with most DVD and CD discs available in the market. DVD, DVD+/-R, DVD+/-RW, (S)VCD, and CD – all of them can play on the DVD player. DVD+/-R is a shorthand term for a DVD drive that can accept both of the common recordable DVD formats. Likewise, DVD+/-RW handles both common rewritable disc types.

18 cm/7" TFT color LCD display

The high resolution color LCD display brings images to life, showing off your treasured photos, favorite

movies and music with the same 'real life' rich detail and vibrant colors as high quality prints.

Car mount pouch

Mount your portable DVD player easily to your car headrest. You can enjoy DVD movies on the road.

Power Resume

The DVD-Video player remembers where you stop watching last time when it is powered off directly or when the power supply discontinued. If you did not switch to play another disc, your player will resume play where you have stopped the movie last time just by reloading the disc. Making your life a lot easier!

Wireless game pad

Unlike other game consoles that use cables, this player comes with an infrared, wireless game console to free you up and let you enjoy hours of hassle-free fun.

DivX Certified

With DivX® support, you are able to enjoy DivX encoded videos and movies from the Internet, including purchased Hollywood films. The DivX media format is an MPEG-4 based video compression technology that enables you to save large files like movies, trailers and music videos on media like CD-R/RW and DVD recordable discs, USB storage and other memory cards for playback on your DivX Certified® Philips device.

Specifications
